Advances in Policy Studies Since 1950 William N. Dunn, Rita Mae Kelly, This latest volume of the Policy Studies Review Annual series brings together leading policy scientists in a comprehensive review of the field s achievements since its professionalization some forty years ago If an advance is defined as an improvement in theory methodology information or practice how does the field measure up And what should its next goals be This unusual compendium of entirely new essays and articles helps to answer such questions On balance the contributors show the record is mixed Policy sciences draw on the theoretical foundations of many disciplines but have not themselves contributed theoretical advances We have more information but information in itself does not constitute an advance Despite improved interaction between academia and government it is difficult to identify new or better policies that have resulted On the other hand there have been impressive advances in methodology procedures for conducting inquiry that yield reliable and relevant policy knowledge In its candid assessment of trends controversies and unsolved problems this volume charts new directions for the policy sciences

Resolving International Disputes Through Super-optimum Solutions Stuart S. Nagel, 2001 This book concerns resolving conflicts on an international level The author states that for the purposes of this book the dispute would have to be at the level of a war revolution or other dispute that involves substantial bloodshed on one or more sides rather than a dispute that merely involves words economic competition or non violent conflict The SOS Resolution is a special kind of Win Win dispute resolution where one where both or all sides come out ahead of even their best initial expectations simultaneously The steps and strategies of this resolution are fully explained

Computer-Aided Judicial Analysis Stuart S. Nagel, 1992-10-23 Decision aiding software the underpinning of computer aided judicial analysis can facilitate the prediction of how cases are likely to be decided prescribe decisions that should be reached in such cases and help administrate more efficiently the court process It can do so says Nagel by listing past cases on each row of a spreadsheet matrix by listing predictive criteria in the columns and in general by showing for each factual element the estimated probability of winning a case The software aggregates the information available and deduces likely outcomes But it can also prescribe judicial decisions by listing alternatives in the rows the goals to be achieved in the columns and by showing relations between alternatives in the cells By similar means decision aiding software can also help perform administrative tasks such as rationally assigning judges or other personnel to cases and by sequencing cases to reduce the time consumed by each case In Part I Nagel provides an overview of computer aided analysis and the role of decision aiding software in the legal process In the second part he deals with judicial prediction from prior cases and from present facts and in the third part he emphasizes the prescribing role of judges particularly in deciding the rules that ought to be applied in civil and criminal procedures Nagel also covers computer aided mediation and provides a new perspective on judicial decisions Then in Part IV he treats at length the process of judicial administration and how to improve its efficiency Of particular interest to court personnel will be the benefits to be derived from reducing delays and in the docketing and sequencing of cases
