Conserving Cultures

Sir Frederic Charles Bartlett

Conserving Cultures:

Conserving Cultures Harry Redner, 2004-02-13 As the forests are felled cultures are destroyed In our technological civilization the forces of globalization are a threat to both nature and culture The many and varied cultures of the world are beset by the homogenizing impact of the global media which represents the triumph of technics The fate can only be averted by a concerted effort at culture conservation Nature and culture must be protected to preserve a humanly habitable world *Conserving Cultures* is the first book to link nature and culture conservation The threat to nature is now well understood how it relates to cultures is not This book both describes and analyzes theoretically the danger to culture and proposes practical remedial measures

Conserving Culture Mary Hufford, 1994 *Conserving Culture* examines heritage protection in the United States and how it has been implemented in specific cases Contributors challenge the division of heritage into nature the built environment and culture They describe cultural conservation as an integrated process for resource planning and recommend supplanting the current prescriptive approach with one that is more responsive to grass roots cultural concerns
