*Constructing Deafness* Susan Gregory, Gillian M. Hartley, 1991-01 This book presents a range of different perspectives on deafness It examines how deafness and deaf people are viewed within education linguistics social policy psychology and audiology as well as the more general presentations of film and fiction It also examines the perspective of deaf people themselves The book places current issues within their historical perspectives and suggests how recent developments including those within the Deaf community are challenging established ideologies and redefining the terms of the debates Further it considers ways in which society through both professional and popular discourses defines and constructs a minority disability group
