Cosmology and New Testament Theology Jonathan T. Pennington,Sean M. McDonough,2008-05-22 For first century people cosmology was a fundamental part of their worldview Whether it was the philosopher contemplating the perfection of the heavenly orbits the farmer searching the sky for signs of when to plant his crops or the desert dwelling sectarian looking for the end of the world the cosmos held an endless fascination and occupied a prominent place in their understanding of life For most ancient peoples cosmology and theology were inseparable Thus when the Jewish and Christian Scriptural traditions begin with the bold claim In the beginning God created the heavens and earth these words make statements which are at once cosmogonic cosmological and theological Scholarship has begun only recently to investigate more fully the various cosmological and cosmogonic traditions that were current in the time of the Old and New Testaments Much of this work however has focused on how OT conceptions of the world compared to other Ancient Near Eastern traditions Much less has been done on the cosmological traditions which stand behind the views of the NT writers Even fewer works have sought to connect cosmological views with NT theology In light of the great importance that cosmology had in ancient peoples worldviews and theological understanding a thorough investigation of this neglected topic is in order *Cosmology and New Testament Theology* systematically examines the NT documents to show how cosmological language and concepts inform interact with and contribute to the specific theological emphases of the various NT books In some NT books the importance of cosmology can be easily discerned while in others what is required is a new and close examination of key cosmological terms e g heaven earth world creation with an eye to the themes and theology of the book

Between Horror and Hope Sorin Sabou,2005 Between Horror and Hope is a study of Paul s metaphorical language of death in Romans 6 1 11 The scholarly debate focuses on two main issues the origin of the commentatio mortis tradition and its development Dr Sabou argues that the origin of this terminology is original to Paul that it was the apostle s own insight into the meaning of Christ s death a death to sin and his understanding of the identity of Christ in his death as the anointed davidic king which guided him to create this metaphor of dying to sin as a way of describing the relationship of the believer with sin On the development of this language of death the author argues that this language conveys two aspects horror and hope The first is discussed in the context of crucifixion in which Paul explains the believer s death to sin by presenting Christ s death as the death of the anointed davidic king who won the victory over sin and death by rising from the dead Paul affirms that believers are coalesced with what was proclaimed about Christ s death and resurrection thereby allowing him to assert that the releasing of the body from the power of sin is a result of crucifixion This crucifixion is the condemnation inflicted on our past lives in the age inaugurated by Adam s sin and this is such a horrible event that believers have to stay away from sin since sin leads to such punishment In

contrast hope is presented in the context of burial The believers burial with Christ points to the fact that they are part of Christ s family and this is accomplished by the overwhelming action of God by which he pushes us toward the event of Christ s death an act pictured in baptism It is this burial with Christ that allows believers to share with Christ in newness of life
