Contemporary Art And Its Philosophical Problems:

Contemporary Art and Its Philosophical Problems Ingrid Stadler,1987-05 This collection examines the complex intersection where art and philosophy merge Topics for discussion include the criticism of Robert Wolfe the minimalist sculpture of the 1960s the metaphysics of photography the paintings of Jackson Pollock and some reflections on why women have been denied entrance to the pantheon of great artists Issues of Contemporary Art and Aesthetics in Chinese Context Eva Kit Wah Man,2015-08-17 This book discusses how China's transformations in the last century have shaped its arts and its philosophical aesthetics For instance how have political economic and cultural changes shaped its aesthetic developments Further how have its long standing beliefs and traditions clashed with modernizing desires and forces and how have these changes materialized in artistic manifestations In addition to answering these questions this book also brings Chinese philosophical concepts on aesthetics into dialogue with those of the West making an important contribution to the fields of art comparative aesthetics and philosophy *Philosophical Skepticism as the Subject of Art* David Carrier,2022-12-01 The artwork of Maria Bussmann a trained academic German philosopher and a significant visual artist provides an ideal test case for a philosophical study of visual art Bussmann has internalized the relationship between art and philosophy In this exploration of the history of German aesthetics through Bussmann's work David Carrier places the philosophical tradition in the context of contemporary visual culture Each chapter focuses on the arguments of a major philosopher whose concerns Bussmann has dealt with as an artist Kant Hegel Merleau Ponty Wittgenstein and Arendt Offering comparative accounts of artists and philosophers whose work is of especial relevance Carrier shows how Bussmann responds visually to writings of philosophers in art that has an elusive but essential relationship to theorizing Tackling the question of whether philosophical subjects can be presented visually Carrier offers a fresh perspective on the German idealist position through the visual art of 21st century artist steeped in the tradition and continually challenging it through her work The Routledge Companion to Performance Philosophy Laura Cull Ó Maoilearca,Alice Lagaay,2020-07-08 The Routledge Companion to Performance Philosophy is a volume of especially commissioned critical essays conversations collaborative creative and performative writing mapping the key contexts debates methods discourses and practices in this developing field Firstly the collection offers new insights on the fundamental question of how thinking happens where when how and by whom philosophy is performed Secondly it provides a plurality of new accounts of performance and performativity as the production of ideas bodies and knowledges in the arts and beyond Comprising texts written by international artists philosophers and scholars from multiple disciplines the essays engage with questions of how performance thinks and how thought is performed in a wide range of philosophies and performances from the ancient to the contemporary Concepts and practices from diverse geographical regions and cultural traditions are analysed to draw conclusions about how performance operates across art philosophy and everyday life The collection both contributes to and critiques the philosophy of music dance theatre and

performance exploring the idea of a philosophy from the arts It is crucial reading material for those interested in the hierarchy of the relationship between philosophy and the arts advancing debates on philosophical method and the relation between Performance and Philosophy more broadly Chapter 19 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

The Orchestration of the Arts — A Creative Symbiosis of Existential Powers M. Kronegger, 2013-03-09
Regardless of the subject matter our studies are always searching for a sense of the universal in the specific Drawing etchings and paintings are a way of communicating ideas and emotions The key word here is to communicate Whether the audience sees the work as laborious or poetic depends on the creative genius of the artist Some painters use the play of light passing through a landscape or washing over a figure to create an evocative moment that will be both timeless and transitory The essential role of art remains what it has always been a way of human expression This is the role that our participants concentrate on as they discuss art as the expression of the spirit a creative act through which the artist makes manifest what is within him Spirit suggests the unity of feeling and thought Avoiding broad generalities our participants address specific areas in orchestration with music architecture literature and phenomenology Profs Souiller Scholz Etlin Sweetser Josephs show us at what point art is an intimate profound expression and the magic of a civilization as a whole springing from its evolving thoughts and embodying ideals such as the Renaissance the Baroque Modernism and at what point it reflects the transformation of a particular society and its mode of life

Contemporary British Philosophy John Henry Muirhead, Hywel D. Lewis, 1925

Philosophy of Sculpture Kristin Gjesdal, Fred Rush, Ingvild Torsen, 2020-09-09
Sculpture has been a central aspect of almost every art culture contemporary or historical This volume comprises ten essays at the cutting edge of thinking about sculpture in philosophical terms representing approaches to sculpture from the perspectives of both Anglo American and European philosophy Some of the essays are historically situated while others are more straightforwardly conceptual All of the essays however pay strict attention to actual sculptural examples in their discussions This reflects the overall aim of the volume to not merely apply philosophy to sculpture but rather to test the philosophical approaches taken in tandem with deep analyses of sculptural examples There is an array of philosophical problems unique to sculpture namely certain aspects of its three dimensionality physicality temporality and morality The authors in this volume respond to a number of challenging philosophical questions related to these characteristics Furthermore while the focus of most of the essays is on Western sculptural traditions there are contributions that feature discussion of sculptural examples from non Western sources *Philosophy of Sculpture* is the first full length book treatment of the philosophical significance of sculpture in English It is a valuable resource for advanced students and scholars across aesthetics art history history performance studies and visual studies
