Sanjib Kumar Basu,2011 Auditing is a multi dimensional subject Its scope is not restricted to financial auditing under the
Companies Act but has been extended to cost accounting aspects managerial policies operational efficiencies and system
applications and audit under the Computer Information System environment It also covers social implications of business
organizations and environmental issues Contemporary Auditing For Chaudhary Charan Singh University covers all these
aspects and also describes the modern tools and techniques of auditing **Contemporary Auditing Practice** F. E.

Thomas,2021-04-08 In this novel academic study Aled Thomas analyses modern issues surrounding boundaries and fluidity in
contemporary Scientology By using the Scientologist practice of auditing as a case study this book explores the ways in
which new types of Scientologies can emerge The notion of Free Zone Scientology is characterised by its horizontal structure
in contrast to the vertical hierarchy of the institutional Church of Scientology With this in mind Thomas explores the Free
Zone as an example of a developing and fluid religion directly addressing questions concerning authority leadership and
material objects This book by maintaining a double focus on the top down hierarchy of the Church of Scientology and the
horizontal fluid nature of the Free Zone breaks away from previous research on new religions which have tended to focus
either on new religions as indices of broad social processes such as secularization or globalization or as exemplars of exotic
processes such as charismatic authority and brainwashing Instead Thomas adopts auditing as a method of providing an in
depth case study of a new religion in transition and transformation in the 21st century This opens the study of contemporary
and new religions to a series of new questions around hybrid religions sacred and secular and acts as a framework for the
study of similar movements formed in recent decades **Contemporary Auditing R Im/Tm** KNAPP,2003-03 Appropriate
for both undergraduate and graduate students these 58 case studies of audits performed on actual companies illustrate the
problems posed by high risk accounts the importance of understanding internal control policies and the ethical dilemmas
both accountants and auditors can face The fifth edition adds seven cases most notably Enro
