A First Look At Communication Theory Paperback:

A First Look at Communication Theory Emory A. Griffin, Andrew Ledbetter, Glenn Grayson Sparks, 2019 A Balanced Approach to Theory Selection We've written A First Look for students who have no background in communication theory It's designed for undergraduates enrolled in an entry level course regardless of the student's classification The trend in the field is to offer students a broad introduction to theory relatively early in their program But if a department chooses to offer its first theory course on the junior or senior level the course will still be the student's first comprehensive look at theory so the book will meet them where they are [A First Look at Communication Theory](#) Emory A. Griffin, 1994-01 This text presents 34 communication theories from classic to new work based on one chapter per theory Extended examples are used to explain each theory which should help students understand theories by applying their explanations and predictions to real life situations Ethics are covered in a special chapter and throughout the text helping students to focus on the ethical implications of communication theories Each chapter concludes with a critique of the theory summarizing its strengths and weaknesses and raising critical questions to encourage analysis and give students an appreciation of the on going process of communication research Cartoons are also included to illustrate important concepts Chapter One provides criteria for determining what makes a communication theory good encouraging critical thinking from the start **Looseleaf for A First Look at Communication Theory** Em Griffin, 2011-04-12 [A First Look at Communication Theory](#) Emory A. Griffin, 2002-07 This best selling text analyzes the major communication theories at a level appropriate for both lower and upper level courses The material is presented in a coherent manner and strikes a balance between humanistic scientific classical and contemporary theories In contrast to previous editions no theories have been dropped Ethics are covered throughout the text A First Look at Communication Theory is the most widely used textbook for the communication theory course *The Communication Book* Mikael Krogerus, Roman Tschäppeler, 2020-02-04 Mikael Krogerus and Roman Tschäppeler have tested the 44 most important communication theories and distilled them in book form alongside clear and entertaining illustrations Want better conversations Ask open ended questions that have no right or wrong answers make your partner feel brilliant Want better meetings Ban smartphones use a timer and make everyone stand up Want better business deals Focus on the thing rather than the person on similarities rather than differences and on good outcomes rather than perfect ones Whether you want to present ideas more clearly improve your small talk or master the art of introspection The Communication Book delivers fusing theoretical knowledge and practical advice in a small but mighty package With sections on work the self relationships and language this book is indispensable for anyone who wants to improve what they say and how they say it [Looseleaf for A First Look at Communication Theory](#) Andrew M. Ledbetter, Em Griffin, Glenn A. Sparks, 2018-03-05 The tenth edition of A First Look at Communication Theory justifies again the program's enduring popularity Em Griffin now joined by colleagues Andrew Ledbetter and Glenn Sparks encourages students who are

encountering the field for the first time to tackle theories without fear The text s conversational style and relevant examples keep complex theories within the grasp of first time theory students The authors introduce 32 diverse theories that are a mix of foundational and recent scholarship and with the benefit of numerous examples and connections to pop culture help students apply them to their own lives The discrete presentation of the theories ensures a well rounded understanding of each while promoting integrative thinking and facilitating the ability of instructors to skip or rearrange their presentation The broad selection of theories from the classics to the cutting edge ensures that students have a solid foundation with which to begin understanding the relationships between theories New to This Edition Responding to instructors desire to offer students more than one social media theory a new chapter highlights Caroline Hawthornthwaite s media multiplexity theory A new chapter features Marc Orbe s co cultural theory which is based on extensive phenomenological research among the LGBTQ community people with physical disabilities and African American men The discussion of relational dialectics theory has been fully updated to center on Baxter s second version of the theory which draws heavily on the thinking of Mikhail Bahktin Updated examples will appeal to current students including the illustration of social judgment theory with the issue of gun control rather than airline safety A revised critique of social information processing theory cites MIT professor Sherry Turkle s challenge to Walther s basic claim that anything we do face to face can be done just as well or better online Cultural studies now includes Larry Frey s appeal for communicative activism for social justice This is the only ethical reflection in the book highlighting an ethicist currently active in the field of communication Based on updated research the presentation of face negotiation theory has been simplified End of chapter Critique sections are sharpened

DeFleur,Margaret H. DeFleur,2022-05-02 The second edition of this innovative textbook provides a comprehensive overview of mass communication theories as well as their origins and empirical supports in psychology sociology political science and philosophy Each chapter presents a specific theory describing its basic structure in simple formal terms and providing an accessible summary of the research studies and scholarly writings from which it developed It breaks each complex theory down into five or six interlinked basic propositions making them easily digestible for students This new edition includes up to date research improved coverage of all theories presented expanded treatments of theories such as cultivation theory the spiral of silence and framing contemporary and social media examples chapter discussion questions and informative charts and figures This textbook serves as an accessible core text for undergraduate and graduate Mass Communication Communication Theory and Communication and Society courses *The Book of Politics* Michael Dutton,2024-07-05 In The Book of Politics Michael Dutton offers an affective theorization of the political and a political theorization of affect Drawing on Western and Chinese social theory and practice Dutton rethinks Carl Schmitt s insistence that the political can be thought of only within the antagonistic pairing of friend and enemy Dutton shows how the power of the friend enemy binary must be understood by conceptualizing the political as the channeling harnessing and transforming of affective energy flows in

relation to that binary Given this affective nature of politics Dutton contends that to rethink the political means moving away from a political science toward an art of the political Such an art highlights fluidity and pulls away from Eurocentric political theory requiring a conceptualization of the political as global He juxtaposes ancient Chinese cosmology medicine and Maoism against the monuments of early capitalist modernity such as the Crystal Palace and the Eiffel Tower to highlight the differences in political investments and intensities From the Chinese revolution to the global rise of right wing movements Dutton rethinks politics in the contemporary world
