## **A Footnote To Plato And Introduction To Western Philosophy:**

*Footnote to Plato* John Douglas Miller, Miller, 1998-11-01      **Footnotes to Plato** Kevin Durand, 2009-07-01      **Dogmas in Literature and Literary Missionary: Text, Reader and Critique** Önder Çakırtaş, 2023-10-17 Literature does have an aspect that drags the readers habitually burying them in its pages and blindly attaching them to itself Blind devotion stems from the factors that are effective in determining the readers faith Theories of literature similarly might bring about the generation of blind adherence and dogmatic approaches This book explores the existence of dogma in literature and some cult texts and writers and how dogmas in literature are conveyed to various audiences as a mission by some literary readers experts and academics Generally dogma is a word related mostly to religion In this frame Mathew Arnold s *Dogma in Religion and Literature* is of great importance as far as religion is concerned However there are dogmas in every field literature being no exception Virginia Woolf for instance wrote stupendous works that turned out to be well known and in 1928 she delivered a lecture at Cambridge University where women were once not allowed that formed the basis for the celebrated *A Room of One s Own* 1929 Roland Barthes 1967 *La mort de l auteur* *The Death of the Author* essay might be another text that some of its literary readers have developed a dogmatic commitment to In addition to revealing how dogma finds its place in literature this book also discusses how literary writers and readers often unwittingly embrace literary missionary Focusing on the dogmatic elements of literature and the dogmatized literary theory and criticism through cult works of various authors the book offers a striking and interesting contribution to literary theory and criticism and literature readings      *Modes of Knowledge and the Transcendental* Henri Oosthout, 1991-01-01 The philosophy of Plotinus is usually depicted as a quest for the absolute outside and beyond the world of human knowledge and experience Yet in the late treatise *Ennead 5 3 49* Plotinus shows himself a philosopher of the transcendental rather than of the transcendent Starting from a critical analysis of the idea of self knowledge he develops a world view in which central notions of his metaphysics are represented not as different hypostases or transcendent beings but as limiting cases of reality as we human beings know it Fundamental to this world view is Plotinus assumption that a close analogy can be established between the psychological and the physical description of man      *Beyond Whitehead* Jakub Dziadkowiec, Lukasz Lamza, 2017-08-29 As with any rich philosophical tradition in a period of intensive growth process philosophy may seem confusing to the uninitiated or even to the initiated There is simply so much going on that one may so to speak lose the forest for the trees The purpose of this book is to organize and arrange selected examples of contemporary work in process philosophy with opening commentaries by leading Whiteheadian scholars to give the reader a taste of the global vision of process currently expressed within this field of philosophy This book is split into two parts the first discussing the historical roots of and future perspectives for basic concepts of process thinking and the second presenting original contemporary work in extending and re interpreting the basic metaphysical structure of process      God as Author Gene C. Fant, Jr., 2010 A thoughtful literary treatise suggesting

that the Gospel is not just like a story but that narrative in general is like the Gospel *The Upanishads* Parsa Venkateshwar Rao Jr.,2020-09-10 The safest general characterization of the European philosophical tradition is that it consists of a series of footnotes to Plato Alfred North Whitehead In *The Upanishads An Introduction* Parsa Venkateshwar Rao Jr argues with greater justification that the whole of Indian philosophy is a footnote to the Upanishads What Western scholars perceive to be the religious stigma of the Upanishads is the very reason these texts remain intellectually alive three thousand years after they had been expounded The Upanishads did not remain static and served as the crucible for philosophical developments in the centuries that followed Drawing upon the scholarship of Indologists such as S Radhakrishnan Surendranath Dasgupta Chandradhar Sharma Daya Krishna Max Mueller Karl Harrington Potter and Patrick Olivelle this handbook introduces the general readers to the tenets of Indian philosophy and its core ideas discussing them as they unfold in the Upanishads through dialogue and stories

**A Guide to the Study of Plato's Republic** Noah Edward Fehl,1962

**Forbidden Faith** Richard Smoley,2009-10-29 Scholar Richard Smoley reveals the secret history of the religious doctrines of Gnosticism in *Forbidden Faith* The success of books such as Elaine Pagels s *Gnostic Gospels* and Dan Brown s *Da Vinci Code* proves beyond a doubt that there is a tremendous thirst today for finding the hidden truths of Christianity truths that may have been lost or buried by institutional religion over the last two millennia In *Forbidden Faith* Richard Smoley narrates a popular history of one such truth the ancient esoteric religion of Gnosticism which flourished between the first and fourth centuries A D but whose legacy remains even today having survived secretly throughout the ages Smoley elegantly tracks one of our wildest and most vital inner lineages the one that comes down through Plotinus the Gospel of Thomas the Cathar Perfects Pico Blake Madame Blavatsky Jung and the Matrix films Coleman Barks author of *The Essential Rumi* This clear concise primer traces the Gnostic threads of philosophy religion science and popular culture from their biblical references through to their 21st century appearances in novels and film Moving easily from one century to the next while at the same time connecting them to each other Smoley is at once thoughtful and thought provoking He paves a wide clear path to understanding it accessible even to the weekend seeker Publishers Weekly Starred Review Drawing on an impressive mastery of the subject matter Smoley traces Gnosticism from the first century CE to the present A compelling and accessible argument A thoroughly enjoyable read highly recommended Library Journal

[The Virgin and the Dynamo](#) Robert Royal,1999 Enlisting religion in environmental discussions has proved to be a two edged sword Some environmentalists point to the Bible as the source of an unholy exploitation of nature Others employ biblical principles to reform or even destroy current science technology economics and social structures that have been beneficial In this timely volume Robert Royal examines how religious values are sometimes misused in current environmental debates and explores how they may be more faithfully used both to restrain excesses in the environmental movement and to inspire sound ecological practices
