

Traditional grammar	Functional grammar
<ul style="list-style-type: none">• based on Latin and Greek grammar• emphasises the rules of smaller units of text: letters, words, sentences and paragraphs• teaching strategies include explicit grammar exercises• focuses on written language• negative: decontextualised from what is going on in the classroom	<ul style="list-style-type: none">• developed by Halliday in 1985• helps people understand how language works in particular social functions (context of culture and context of situation)• focuses on text as a whole (text-types), analysing:<ol style="list-style-type: none">1) field = what is going on in text2) tenor = roles, relationships and communication of the participants3) mode = channel of communication <p>(Winch, 2010)</p>

A Functional View Of English Grammar

Henry Allan Gleason

A Functional View Of English Grammar:

A Functional View of English Grammar Paul Richard Rastall, 1995-04 This work is written in the functionalist neo Prague approach to linguistics in which languages are seen as communicational means or strategies employed for the satisfaction of human needs and aims Grammatical strategies are an important subset of those communicational means The theory and methods of a functionalist approach to grammar following such thinkers as Martinet and Mulder are explained and applied to key areas of English grammar [A Functional View of English Grammar](#) Paul Rastall, 1995 **English**

Grammar Talmy Givón, 1993 The approach to language and grammar that motivates this book is unabashedly functional grammar is not just a system of empty rules it is a means to an end an instrument for constructing concise coherent communication In grammar as in music good expression rides on good form Figuratively and literally grammar like musical form must make sense But for the instrument to serve its purpose it must first exist the rules must be real they can be explicitly described and taught This book is intended for both students and teachers at college level for both native and nonnative speakers With the guidance of a teacher this book will serve as a thorough introduction to the grammar of English Volume I begins with words and their meanings then on to propositions and simple state or event clauses participant roles verb types transitivity subjects and objects It then covers the grammatical sub systems commonly found in simple clauses Verbal inflections auxiliaries and the grammar of tense aspect modality and negation articles determiners pronouns and the grammar of referential coherence the variety of noun phrases and noun modifiers **Structure and Function:**

Approaches to the simplex clause Christopher Butler, 2003 Volume one of a two volume set outlining and comparing three approaches to the study of language labelled structural functionalist functional grammar FG role and reference grammar RRG and systemic functional grammar SFG *Structure and Function* □ *A Guide to Three Major Structural-Functional Theories* Christopher S. Butler, 2003-06-30 This book and its companion volume present a detailed guide to three major structural functional theories Functional Grammar Role and Reference Grammar and Systemic Functional Grammar This first volume provides the necessary background through a discussion of the characteristics of functional theories followed by a brief analysis of six approaches to language in the light of this discussion These chapters lead to a characterization of a smaller set of structural functional grammars among which FG RRG and SFG are central An overview of each of these theories in relation to the simplex clause is then presented followed by a more critical comparison The remainder of the book deals with the structure and meaning of phrasal units the representation of situations and the treatment of tense aspect modality and polarity across the three theories A major feature of the book is the use of examples from corpora of English and other languages which serve not only to exemplify theoretical and descriptive claims but also at times to challenge them

A Functional Discourse Grammar for English Evelien Keizer, 2015-01-29 This is the first textbook on Functional Discourse Grammar a recently developed theory of language structure which analyses utterances at four independent levels

of grammatical representation pragmatic semantic morphosyntactic and phonological The book offers a very systematic and highly accessible introduction to the theory following the top down organization of the model it takes the reader step by step through the various levels of analysis from pragmatics down to phonology while at the same time providing a detailed account of the interaction between these different levels The many exercises categorized according to degree of difficulty ensure that students are challenged to use the theory in a creative manner and invite them to test and evaluate the theory by applying it to the new data in various linguistic contexts Evelien Keizer uses examples from a variety of sources to demonstrate how the theory of Functional Discourse Grammar can be used to analyse and explain the most important functional and formal features of present day English The book also contains examples from a wide variety of other typologically diverse languages making it attractive not only to students of English linguistics but to anyone interested in linguistic theory more generally

The Oxford Handbook of English Grammar Bas Aarts, Jill Bowie, Gergana Popova, 2019-11-14 This handbook provides an authoritative critical survey of current research and knowledge in the grammar of the English language Following an introduction from the editors the volume's expert contributors explore a range of core topics in English grammar beginning with issues in grammar writing and methodology Chapters in part II then examine the various theoretical approaches to grammar such as cognitive constructional and generative approaches followed by the chapters in part III which comprehensively cover the different subdomains of grammar including compounds phrase structure clause types tense and aspect and information structure Part IV offers coverage of the relationship between grammar and other fields lexis phonology meaning and discourse while the concluding part of the book investigates grammatical change over time regional variation and genre and literary variation The handbook's wide ranging coverage will appeal to researchers and students of English language and linguistics from undergraduate level upwards

Proceedings / Anglistentag 1995 Greifswald
Jürgen Klein, Vanderbeke Dirk, 2016-11-21 No detailed description available for Proceedings Anglistentag 1995 Greifswald

A Cognitive-Functional Approach to Nominalization in English Liesbet Heyvaert, 2003 The main objective of this book is to present a systematic account of the constructional mechanisms that underlie deverbal nominalization Such an account strongly calls for a functional rather than purely structural approach because nominalizations are basically functional reclassifications of verbal predicates into nominal constructions The argument is fortified by a detailed discussion of a number of nominalization systems The book should be of interest to researchers in cognitive and functional linguistics it combines original descriptive contributions with general theoretical insights

Routledge Encyclopedia of Language Teaching and Learning Michael Byram, 2000 This handbook deals with all aspects of contemporary language teaching and its history Produced for language teaching professionals it is also useful as a reference work for academic studies at postgraduate level

Functional Grammar Harry Nathaniel Rivlin, 1930

Structure and Function: From clause to discourse and beyond Christopher Butler, 2003 Volume one of a two volume set outlining and comparing three approaches to the study of language

labelled structural functionalist functional grammar FG role and reference grammar RRG and systemic functional grammar SFG

Methods of Teaching, Developed from a Functional Standpoint Werrett Wallace Charters,1909 **Linguistics and English Grammar** Henry Allan Gleason,1965 **Exploring English Grammar** Caroline Coffin,Jim Donohue,Sarah North,2013-04-15 This engaging textbook bridges the gap between traditional and functional grammar Starting with a traditional approach students will develop a firm grasp of traditional tools for analysis and learn how SFG Systemic Functional Grammar can be used to enrich the traditional formal approach Using a problem solving approach readers explore how grammatical structures function in different contexts by using a wide variety of thought provoking and motivating texts including advertisements cartoons phone calls and chatroom dialogue Each chapter focuses on a real world issue or problem that can be investigated linguistically such as mis translation or problems arising from a communication disorder By working on these problems students will become equipped to understand and analyze formal and functional grammar in different genres and styles With usable and accessible activities throughout Exploring English Grammar is ideal for upper undergraduate and postgraduate students of English language and linguistics

Crowell's Dictionary of English Grammar and Handbook of American Usage Maurice Harley Weseen,1928 Structure and Function Christopher Butler,C. S. Butler,2003 Volume two of a two volume set outlining and comparing three approaches to the study of language labelled structural functionalist Functional Grammar FG Role and Reference Grammar RRG and Systemic Functional Grammar SFG

The Functional Analysis of English Thomas Bloor,Meriel Bloor,1995 It includes an overview of applications of functional grammar to show the practical importance of linguistic theory and analysis in relation to issues in education and society and explains the place Halliday and his school have in the history of linguistics Linguistic terms are clearly explained and illustrated with authentic examples of English from a wide variety of sources including scientific and technical texts

Concise Encyclopedia of Syntactic Theories K. Brown,J. Miller,1996-12-17 The Concise Encyclopedia of Syntactic Theories presents a collection of articles on all major syntactic theories current or past taken from the award winning Encyclopedia of Language and Linguistics

Functional Semantics Peter Harder,1996 TRENDS IN LINGUISTICS is a series of books that open new perspectives in our understanding of language The series publishes state of the art work on core areas of linguistics across theoretical frameworks as well as studies that provide new insights by approaching language from an interdisciplinary perspective TRENDS IN LINGUISTICS considers itself a forum for cutting edge research based on solid empirical data on language in its various manifestations including sign languages It regards linguistic variation in its synchronic and diachronic dimensions as well as in its social contexts as important sources of insight for a better understanding of the design of linguistic systems and the ecology and evolution of language TRENDS IN LINGUISTICS publishes monographs and outstanding dissertations as well as edited volumes which provide the opportunity to address controversial topics from different empirical and theoretical viewpoints High quality standards are ensured through
