A Gathering of Strangers Robert C. Worley,1983      **A Gathering of Strangers** Robert C. Worley,1983-01-01 In this edition of his widely used book Robert C Worley takes into account recent biblical and sociological studies and employs inclusive language to help clergy and laity see the church as it is in relation to its members and to the larger community as well      **Congregation** James F. Hopewell, In a unique full scale study of congregational life Hopewell shows that it is narrative the oral tradition that knits a congregation together      Congregations Carl Ellis Nelson,1988-01-01 C Ellis Nelson has collaborated with and collected the works of ten leaders experienced in congregational affairs to design and produce a resource that helps ministers and lay leaders understand the dynamics of congregations The result is an engaging collection that will help pastors and church leaders invigorate their congregations      *God's Missionary People* Charles E. Van Engen,1991-09 A world claiming theology of the church draws on ancient and modern thoughts The author focuses on how the church can grow to become in reality God s missionary people      *In Pursuit of Creative Conflict Management: an Overview* Winston A. Richards D.Min.,2019-07-17 The transition from classroom lectures and practice preaching into the real world of ministry is not always smooth The anticipation of putting into practice the ideas arising from one s education is dampened by the emergence of opposition Experience leads the youthful pastor to recognize the need to balance zeal knowledge and enthusiasm with improved interpersonal skills      Dry Bones Live Robert H. Craig,1993-02-01 Robert Craig and Robert Worley have written this practical book as an aid to revitalizing church organizations especially ones that perceive themselves as victims of outside forces It is an excellent resource that offers guidance to congregations evaluating their current position and planning for renewal      **Importing Faith** Glyn J. Ackerley,2015-10-23 Many twenty first century evangelical charismatics in Britain are looking for a faith that works They want to experience the miraculous in terms of healings and God sent financial provision Many have left the mainstream churches to join independent charismatic churches led by those who are perceived to have special insights into faith and to teach principles that will help believers experience the miraculous But all is not rosy in this promised paradise and when people are not healed or they remain poor they are often told that it is because they did not have enough faith or are too negative This study seeks to discover the origin of the principles that are taught by some charismatic leaders Ackerley identifies them as the same ideas that are taught by the positive confession health wealth and prosperity movement originating in the United States The origins of the ideas are traced back to New Thought metaphysics and its background philosophies of subjective idealism and American pragmatism These principles were imported into the UK through contact between British leaders and those influenced and trained by American word of faith teachers The author seeks to explain the persuasiveness of such teachers through examining case studies He suggests their miracles may well have social and psychological explanations rather than divine origins      **Story and Context** Donald Eugene Miller,1987      What People Expect from Church Robert L. Randall,1992 Randall demonstrates

that people have four basic yearnings to be understood to understand to belong and to hope He believes that the church is in a survival mode at present because it focuses too much on maintaining structures and programs and not enough on meeting the relational yearnings that bind together a worshipping community Randall shows leaders how to address these relational yearnings so that the Christian congregation may be reestablished and healed through preaching teaching administration and congregational worship and social life
