A Glimpse Of The Planet Zinn:

A Glimpse of the Planet Zinn Abron S. Touré,2004-09 A Glimpse of the Planet Zinn is a science fiction fantasy loaded with symbolism and religious overtones The story unfolds around the lives of three boys They are heirs destined to inherit the legacy of a great society where one of the ultimate gifts or achievements is eternal life This benefaction is ever fleeting and obtained more as a result of predestination or accident rather than one s personal endeavors or abilities The struggle is very complex The participants are not even aware that the gift exists In fact all who reach this height do so without conscious effort However the consolation to those who fall short is also quite rewarding Theirs is the achievement of adulthood which brings with it the glorious rank of full participation as a member of the Zinndarian society

Lucidia a Glimpse of Dualism Abron Toure,2005-12 Lucidia A Glimpse of Dualism is the second book in The Glimpse science fiction fantasy series It carries on in the tradition of blending technology religious symbolism and a philosophical critique on contemporary social and environmental ethics The story picks up with the lives of our three main characters Issy Gyee and Weaver now all grownup having taken their rightful places in Zinndarian public life They are given the task to protect the legacy they have inherited as citizens of a great society Two crucial changes unfold in the book Our heroes find their female counterparts and in so doing begin to discover the real gifts associated with the creation story Secondly the mysteries of mysticism come full circle At the heart of the story a debate rages whether the art can be practiced as a true science The question becomes mute as the physical and spiritual evolution of the planet s inhabitants begins to fully play out The hidden secrets in the first Glimpse saga or the means to attaining eternal life continues to unfold as the people of Zinn are compelled to accept their role in a war that is being waged on a celestial level In this battle the once mysterious Teachers move away from their anonymous role as Keepers of the Camps and reengage the Zinndarians as allies against an unimaginable foe Above all Lucidia is a love story between man and woman man and mentor and man and his creator The Zinndarian life struggle remains as complex as ever as the gifts and the legacy of their condition becomes more rewarding

A Glimpse of the Planet Zinn Abron Toure,2017-01-21 A Glimpse of the planet Zinn is a science fiction fantasy loaded with symbolism and religious overtones The story unfolds around the lives of three boys They are heirs destined to inherit the legacy of a great society where one of the ultimate gifts or achievements is eternal life This benefaction is ever fleeting and obtained more as a result of predestination or accident rather than one s personal endeavors or abilities The struggle is very complex The participants are not even aware that the gift exists In fact all who reach this height do so without conscious effort However the consolation to those who fall short is also quite rewarding Theirs is the achievement of adulthood which brings with it the glorious rank of full participation as a member of the Zinndarian society The quest for this standing begins in a large domicile which is referred to as a trial camp Here the residences are put through various tasks or sensory learning experiences The questioning of the reality of these undertakings becomes an

integral part of the dilemma for their successful completion So indelible is the impact these trials on the youthful participants that their maturation in fact their entire lives become a manifestation or by product of their performance The soul searching the youth of the planet endure in order to accomplish their goals sometimes results in actions of a contradictory nature To some extent efforts most would consider being fundamental or a basic ingredient for success lead to utter failure In the final analysis one may have mixed emotions about being envious of an individual s position or achievement when put into perspective of how that position or achievement was attained
