A Gravitys Rainbow Companion

A Gravity's Rainbow Companion:

A Gravity's Rainbow Companion Steven Weisenburger, 2006 Serves as a guide to Thomas Pynchon's Gravity's Rainbow. This title takes the reader page by page often line by line through the welter of historical references, scientific data, cultural fragments, anthropological research, jokes, and puns around which Pynchon wove his story. **Maximalism in Contemporary American Literature** Nick Levey, 2016-11-18 This book begins a new and foundational discussion of maximalism by investigating how the treatment of detail in contemporary literature impels readers to navigate, tolerate, and enrich the cultural landscape of postindustrial America. It studies the maximalist novels of David Foster Wallace, Nicholson Baker, Thomas Pynchon, and others, considering how overly detailed writing serves the institutional, emotional, and intellectual needs of contemporary readers and writers. The book argues that maximalist novels not only exceed perceived limits of style, subject matter, and scope but strive to remake the usefulness of books in contemporary culture, refreshing the act of reading. Levey shows that while these novels are preoccupied with detail and description, they are relatively unconcerned with the traditional goals of representation. Instead, they use detail to communicate particular values and fantasies of intelligence, enthusiasm, and ability attached to the management of complex and excessive information. Whether reinvigorating the banal and trivial in mainstream culture or soothing anxieties of human insufficiency in the age of automation and the internet, these texts model significant abilities rather than just objects of significance and encourage readers to develop habits of reading that complement the demands of an increasingly detailed culture. Drawing upon a diverse range of theoretical schools and cultural texts, including Thing Theory, Marxism, New Formalism, playlists, blogs, and archival manuscripts, the book proposes a new understanding of maximalist writing and a new way of approaching the usefulness of literary objects in contemporary culture. **The Poetics of Chronotope in the Novels of Thomas Pynchon** Zofia Kolbuszewska, 2000 **Trauma, Postmodernism, and the Aftermath of World War II** P. Crosthwaite, 2009-01-29 The first sustained study of the relationship between Anglo-American postmodernist fiction and the Second World War, Crosthwaite demonstrates that postmodernism has not abandoned history but has rather reformulated it in terms of trauma that is traceable to time and again to the catastrophes of the 1940s. **Postmodern Postures** Daniel Cordle, 2017-03-02 In 1996, the physicist Alan Sokal planted a hoax article in the journal *Social Text*, mimicking the social constructionist view of science popular in the humanities and sparking into life the science wars, which had been rumbling throughout the 1990s. *Postmodern Postures* puts this contemporary controversy into the context of earlier debates about the two cultures between F. R. Leavis and C. P. Snow and Matthew Arnold and T. H. Huxley. Through an interrogation of interdisciplinary approaches to literature and science and a discussion of the arguments surrounding postmodern culture, the book formulates a literary critical methodology for literature/science criticism, highlighting both the benefits and the limitations of attempts to link the two cultures. Three case studies, focused through the issues of knowledge, identity, and time, put this methodology into practice, showing how ideas

resonate through the culture between literature and science **Blissful Bewilderment** Anne Mangen, Rolf Gaasland, 2002
