distinguishing features of Welles and of Mankiewicz s writing And What did each contribute to the writing of the Citizen Kane screenplay To answer these questions the author bypasses opinions and impressions and instead subjects the language of the Citizen Kane screenplay to a forensic examination Employing linguistics basic statistical tests plus computer technology and software the author identifies the stylistic signature of each author the combination of consistent and regular linguistic habits that make each author s writing distinctive This book replaces impressionistic discussions of Mankiewicz s and Welles contributions to the Citizen Kane screenplay with a rigorous experiment driven statistical analysis Earlier statistical studies of authorship have discovered that small unassuming language features such as punctuation pronouns and prepositions in statistically significant quantities constitute a screenwriter s distinctive writing habits Only with the extensive experimentation carried out in this volume did the author decide Mankiewicz s and Welles specific habits and their contributions to Citizen Kane **Editing Documents and Texts** Beth Luey,Kathleen Gorman,1990 Over the past twenty years the field of scholarly editing has expanded and altered immeasurably In Editing Documents and Texts Beth Luey has compiled for the first time 900 references from nearly 200 journals and books that explain how scholarly editors do their work and the theories behind their editing Bridging the traditional gap between historical and literary editing Luey surveys the relevant scholarship in all editorial fields and presents a thorough picture of the state of the discipline Anyone interested in the editing of documents and texts whether an undergraduate or graduate student instructor or a beginning or experienced editor will find Editing Documents and Texts an indispensible reference **Personal Computer Applications** Bryan Pfaffenberger,1987 McGraw-Hill Personal Computer Programming Encyclopedia William J.
