[The Birds of St Helena](#) Beau W. Rowlands, 1998 **Birds of the UK Overseas Territories** Roger Riddington, 2020-07-23 An authoritative guide to birds of the UK Overseas Territories The UK Overseas Territories UKOTs are scattered across the globe Most are small islands or island complexes occurring from the Caribbean to the furthest reaches of the South Atlantic via the Indian and Pacific Oceans In terms of global biodiversity these territories are remarkably significant Among landscapes that range from coral atolls through mangroves and dry forests to the ice sheets of Antarctica the UKOTs support no fewer than 45 species of birds currently considered to be globally threatened They are also home to a third of all the world s breeding albatrosses and nine of the world s 17 species of penguin In a rapidly changing world the UKOTs symbolise global crises in climate and biodiversity Threats faced by their wildlife range from mortality of seabirds at sea through industrial fisheries and on land as a result of introduced ground predators to the utter devastation of hurricanes in the Caribbean which provide a stark reminder of our changing climate The human impact on the wildlife of our planet has been increasing for centuries but the next few decades promise to be critical This book illustrated with maps and colour photos explores the birds and other wildlife of each of the 14 UKOTs with a particular focus on environmental threats

Royle, 2002-09-11 First Published in 2004 Islands have always fascinated people They often seem remote and mysterious set between the continents on which most people live Indeed many people choose islands for their perfect holiday idyll In practice however the everyday social and economic reality is often very different A Geography of Islands firstly examines the differing ways islands are formed Despite the uniqueness of such islands in terms of shape size flora and fauna and also their economic and developmental profiles they all share certain characteristics and constraints imposed by their insularity These present islands everywhere with a range of common problems A Geography of Islands considers how their small scale isolation peripherality and often a lack of resources has affected islands in the present day and their past It considers and discusses population issues communications and services island politics and new ways of making a living especially tourism found within contemporary island geography A Geography of Islands gives a comprehensive survey of islandness and its defining features Stephen A Royle has visited and studied 320 islands in 50 countries in all the world's oceans It is full of up to date global case studies from Okinawa to Inishbofin and Hawaii to Crete In the final chapter all the themes are brought together in a case study of the Atlantic island of St Helena It is well illustrated with the author's own photographs and maps This book will appeal to those studying islands as well as those with an interest in the topic particularly those engaged in dealing with small island economies **Curious Little World** Rex Bartlett, 2007 Hang on for a wildly entertaining crazy adventure in a forgotten corner of the world Curious Little World is the true funny cautionary tale of a Winnipeg couple who flee city life to pursue The Unpatriotic Canadian Dream escape to a tropical island In proper bold lunatic bridge burning style Rex and Cynthia sell all their worldly possessions and buy one way tickets to St Helena Island one of the most remote and isolated islands on earth On the globe it's just a solitary fly speck about midway between Africa and South America No airplane has ever landed on St Helena and only one ship makes regular voyages between the sunny little island and the distant outside world Cynthia and Rex have bought an abandoned house on the island A house they've never seen No plumbing No electricity No telephone Comes with donkey Their new home overlooks St Helena's most famous landmark the house where Napoleon died According to island folklore Napoleon put a curse on St Helena and on all island endeavors for all time Is the couple's dream of tropical island escape cursed You'll laugh You'll cry You'll be glad it's not you And you'll wish it was Better Birding George L.

Armistead, Brian L. Sullivan, 2016 *Better Birding* reveals the techniques expert birders use to identify a wide array of bird species in the field quickly and easily. Featuring hundreds of stunning photos and composite plates throughout, this book simplifies identification by organizing the birds you see into groupings and offering strategies specifically tailored to each group. Skill building focuses not just on traditional elements such as plumage but also on creating a context around each bird, including habitat, behavior, and taxonomy—parts so integral to every bird's identity but often glossed over by typical field guides. Critical background information is provided for each group, enabling you to approach bird identification with a wide-angle view using your eyes, brain, and binoculars more strategically, resulting in a more organized approach to learning birds. *Better Birding* puts the thrill of expert bird identification within your reach. Reveals the techniques used by expert birders for quick and easy identification. Simplifies identification with strategies tailored to different groupings of birds. Features hundreds of photos and composite plates that illustrate the different techniques. Fosters a wide-angle approach to field birding. Provides a foundation for building stronger birding skills.

World Birdwatch, 2004 [An Atlas of Wader Populations in Africa and Western Eurasia](#) Derek A. Scott, Timothy Dodman, David A. Stroud, 2009. This publication is a compilation of current knowledge of the numbers, distribution, and movements of one of the most remarkable groups of birds in the region covered by the African-Eurasian Migratory Waterbird Agreement (AEWA). Long-term waterbird count data have been combined with an extensive literature review, especially published results of bird ringing and national bird atlases, to produce maps showing the population boundaries that are used as a basis for the conservation of these species. The maps are supported by informative species accounts that highlight the movements, population status, and conservation of waders in the AEWA region.

The South and East African Year Book & Guide, 1949 *St. Helena, Ascension, and Tristan da Cunha* Alan Edwin Day, 1997. These three South Atlantic British dependent territories were all discovered by Portuguese seamen in the early sixteenth century. Following in the wake of the Portuguese, English and Dutch East India men found the island a convenient port of call on the long haul home. After a brief struggle, St. Helena was under the direct rule of the East India Company from 1673 to 1834, when it became a Crown Colony. It is best known as the place of exile of Napoleon Bonaparte from 1815 to his death in 1821. With the opening of the Suez Canal and the introduction of steamships, St. Helena's economy collapsed, and the island has remained a quiet backwater ever since. Ascension and Tristan da Cunha were both occupied by a British garrison when Napoleon arrived on St. Helena in order to prevent any attempt at rescue. Ascension remained under Admiralty control as a stone frigate until 1922, when it became a dependency of St. Helena. During the Second World War, an American air base was constructed, which was heavily used as a staging post for the British task force en route to recover the Falkland Islands in the 1982 South Atlantic War. The base continues to provide an essential link in the logistical support of the British garrison on

the Falklands A small number of families eked out a precarious and isolated existence on Tristan from 1826 to 1961 when its volcano thought to be long extinct suddenly erupted causing the islanders to be evacuated to England There was a general amazement when most of them elected to return to their hard life in 1962 Today they enjoy six calls a year by South African vessels from Cape Town in connection with the crawfish industry on the island and an annual visit by a ship from England
