*Marine Simulation and Ship Manoeuvrability* M.S. Chislett, 2021-10-01

Real time interactive ship simulators limped onto the scene in the wake of flight simulators some years ago The maritime industries have a long history of conservatism but this is now changing rapidly The information age has also swept over ships and shipping and has been taken to heart to such an extent that for example flight simulators now cooperate with ship simulators and import useful new concepts and methodologies The more than 50 papers contained in this book show what and why Although traditionally conservative the marine world is also traditionally international and this has not changed The papers in the book are by leading authors from all over the world and provide a detailed snap shot of the rapidly advancing state of the art together with pointers to the future The overall theme of MARSIM 96 and therefore also of this book is Vessel manouevrability and marine simulation research training and assessment and includes original papers on topics such as bridge resource management distant learning and simulators coupled via The Internet virtual reality neural networks rudder propeller hydrodynamics prime mover models squat in shallow water and many more

*Farwell's Rules of the Nautical Road* Craig H. Allen, 2005

Professional mariners military and civilian will find this book to be an invaluable reference in understanding the rules of the road and the role these rules play in managing the risk of collision The author provides a thorough commentary on the rules and an analysis of collision cases involving abuse of the rules Maritime attorneys and judges will find the book continues to be an indispensable reference on collision law as Craig Allen provides a mariner s insight into how the rules apply in context and their application by the courts and administrative tribunals This new edition completely revises chapters on the rules pertaining to good seamanship and special circumstances and on restricted visibility and it vastly expands coverage of the narrow channel rule traffic separation schemes and the application of the rules to high speed craft It also extensively revises materials on the look out and risk of collision responsibilities to update coverage on radar and ARPA and to address new technologies such as integrated bridge systems automatic identification systems voyage data recorders and the increasingly active role of VTS The first update in ten years the eighth edition upholds and even surpasses the standards set over the past sixty years of the guide s publication
