Step By Step **The Oxford Handbook of History and Material Culture** Ivan Gaskell, Sarah Anne Carter, 2020 Most historians rely principally on written sources Yet there are other traces of the past available to historians the material things that people have chosen made and used This book examines how material culture can enhance historians understanding of the past both worldwide and across time The successful use of material culture in history depends on treating material things of many kinds not as illustrations but as primary evidence Each kind of material thing requires the application of interpretive skills appropriate to it These skills overlap with those acquired by scholars in disciplines that may abut history but are often relatively unfamiliar to historians including anthropology archaeology and art history Historians can adapt and apply the same skills they honed while studying more traditional text based sources even as they borrow methods from these fields
