African Perspectives:

African Perspectives on Colonialism A. Adu Boahen, 2020-10-06 This history deals with the twenty year period between 1880 and 1900 when virtually all of Africa was seized and occupied by the Imperial Powers of Europe Eurocentric points of view have dominated the study of this era but in this book one of Africa s leading historians reinterprets the colonial experiences from the perspective of the colonized The Johns Hopkins Symposia in Comparative History are occasional volumes sponsored by the Department of History at the Johns Hopkins University and the Johns Hopkins University Press comprising original essays by leading scholars in the United States and other countries Each volume considers from a comparative perspective an important topic of current historical interest The present volume is the fifteenth Its preparation has been assisted by the James S Schouler Lecture Fund African Perspectives on Global Development Mahmoud Masaeli, Rico Sneller, 2019-01-22 Africa is not merely an invention with a modern imperial or colonial background Nor is it simply a continent in need of foreign aid from the richer more affluent societies Africa might be economically needy politically unstable and in part socially chaotic and suffering from civil wars and social unrest However the continent and its peoples are certainly different from the negative image portrayed in the mass media Africa had been the cradle of civilization in the pre colonial era and is today undergoing a diverse cultural philosophical and spiritual development with great potential contributing to contemporary debates around the ethics of globality The novelty of this book derives from its multidisciplinary approach Although the authors generally come from the fields of development and economics global studies political science philosophy and ethics and sociology they present Africa s alternative view of human wellbeing in order to provide theories and policy recommendations which inspire the specific developmental patterns for the growth of the continent The volume discusses the meaning of development for the continent by drawing on culture identity ethnicity and philosophy of nature The contributors examine a variety of issues and themes directly related to the opportunities provided by globality to promote the development of the continent They also discuss solutions for underdevelopment and poverty and how those perspectives might be effectively integrated into the global agenda for the development of Africa *African Perspectives* ,1993 *African Perspectives on China in Africa* Firoze Manji, Stephen Marks, 2007-02-28 This publication presents African social historical and cross continental perspectives on Chinese involvement in Africa **Contemporary African Perspectives on the Bible** Tobias Marevesa, Nyasha Madzokere, Lovemore Togarasei, Billy Meyer, 2024-08-10 This volume explores current methodological developments in the interpretation of the Bible from an African perspective Previous scholarship has explored the relevance of Eurocentric biblical interpretive methods to African experiences and contexts This book furthers the discussion by examining the continuing importance of contextual Bible interpretation Authors provide an evaluation of the work done by the precursors and predecessors interpreting the Bible from an African point of view and then analyse the emerging challenges to interpreting the Bible in an ever changing context The volume is a comprehensive

resource providing new interpretations of the Bible in Africa and addressing the contemporary questions of people in Africa and beyond *Chinese and African Perspectives on China in Africa* Axel Harneit-Sievers, Stephen Marks, Sanusha Naidu, 2010-09-30 Any book on Africa China relations which steers away from hegemonic western perspectives and paradigms is welcome This is one such book Issa G Shivji Mwalimu Nyerere Professor of Pan African Studies University of Dar es Salaam [African Perspectives to the Question of Life's Meaning](#) Aribiah D. Attoe, 2023-10-17 This insightful book is the first edited book volume in the literature to concern itself primarily with the question of life s meaning from the largely under explored African perspective In this collection the authors have undertaken to answer this question and other related questions by showing some of the possible conceptions of life s meaning that can be derived from traditional African perspectives African Perspectives to the Question of Life s Meaning will be a key resource for academics researchers and advanced students of philosophy African studies psychology and religion This book was originally published as a special issue of South African Journal of Philosophy [African Perspectives on Ethics for Healthcare Professionals](#) Nico Nortjé, Willem A. Hoffmann, Jo-Celene De Jongh, 2018-10-24 This book focuses on ethical issues faced by a variety of healthcare practitioners across the Anglophone African continent This important resource contains in depth discussions of the most salient current ethical issues by experts in various healthcare fields Each profession is described from both an African and a South African perspective and thus contributes to dialogue and critical thinking around African ethics and decision making In this way the book provides readers with an understanding of the ethical issues at hand in various professions including the practical implications of the ethical issues and how to address those effectively This is a beneficial resource for all those involved in the various healthcare professions addressed in this book including undergraduate students lecturers researchers and practitioners across the continent Simply put with the dynamic changes and challenges in healthcare across the globe and in Africa this is an indispensable resource for healthcare practitioners [African Perspectives on European Colonialism](#) A. Adu Boahen, 2011 In this book one of the pioneers of twentieth century African history examines the perceptions and responses of Africans to European colonialism of the late nineteenth and early twentieth century This edition of Boahen s text originally published in 1989 is contextualized in a new foreword by John Lonsdale updating some of Boahen s findings and interpretations while maintaining that the best totally unambiguous legacy of this republication would surely be the inspiration of a new generation of African scholars locally based as clear minded and outspoken as Adu Boahen himself

West African Studies West African Perspectives Resources for Development OECD, Sahel and West Africa Club, 2009-10-15 Presents a cross cutting analysis of the main development challenges for the West African region and offers suggestions on how to meet them *Our Continent, Our Future* P. Thandika Mkandawire, Charles Chukwuma Soludo, 1998 Our Continent Our Future presents the emerging African perspective on this complex issue The authors use as background their own extensive experience and a collection of 30 individual studies 25 of which were from African economists to

summarize this African perspective and articulate a path for the future They underscore the need to be sensitive to each country's unique history and current condition They argue for a broader policy agenda and for a much more active role for the state within what is largely a market economy Finally they stress that Africa must and can compete in an increasingly globalized world and perhaps most importantly that Africans must assume the leading role in defining the continent's development agenda

African Perspectives Christopher Allen, R. W. Johnson, 2008-12-18 Scholars from all over the world contributed to the Festschrift volumes presented as a tribute to Thomas Hodgkin on his sixtieth birthday This book contains a selection from those contributions reflecting the wide scope of Hodgkin's own interests work and influence in the field of African and Tiers Monde studies All the contributions represent original and previously unpublished work in the fields of African history Islamic studies and the sociology of religion and also of contemporary political and economic studies They are particularly concerned to examine questions of a general and theoretical importance often by means of detailed case studies Among the countries thus discussed are Ghana Guinea Nigeria Senegal Guin Bissao Zambia Ivory Coast Tanzania Gambia and as part of the African diaspora Jamaica Fittingly these essays share one of the main features which have distinguished Thomas Hodgkin's own work they take a critically evaluative view of some of the established interpretations and conventional wisdoms surrounding their subjects This book will provide an introduction in depth to the whole field of African studies as well as being essential material for specialists in many disciplines

Leap 4.0. African Perspectives on the Fourth Industrial Revolution Zamanzima Mazibuko-Makena, Erika Kraemer-Mbula., 2021-04-09 Leap 4 0 African Perspectives on the Fourth Industrial Revolution seeks to identify the challenges and opportunities the 4IR presents to South Africa and the rest of the African continent especially to workers and marginalised sectors of society Authors examine the prerequisites for the successful introduction of the 4IR including infrastructure skilled personnel and appropriate regulation They underline the importance of inclusive innovation with a deliberate objective to create net new jobs and reduce inequality The 4IR is well established in many parts of the world with technological advances driving profound social and economic change However for many developing countries particularly countries in Africa the 4IR may not offer the anticipated leap forward There is a danger that the continent may find itself dictated to by experiences that are not in tune with its social contexts

African Perspectives on Governance Göran Hydén, Dele Olowu, H. W. O. Okoth-Ogendo, 2000 This book brings

together the views of a group of East and West African scholars on a range of issues relating to how African countries are being governed In contrast to most other publications on governance which tend to reflect primarily the views of the international donor community this book provides a refreshing African perspective on these issues It is critical in its approach but the authors speak with authority based on both personal experience and research on the African continent The book addresses such aspects of governance as human rights the freedom of the media the role of intellectuals the place of local government in national politics women in politics the significance of constitutionalism and ethnic pluralism Each subject is covered comparatively with reference to both East and West Africa This book lends itself to courses on African politics or more general education courses on African development issues It should also be of relevance to analysts of African governance and development in governments inter governmental and non governmental organizations African Perspectives on Development Ulf Himmelstrand, Kabiru Kinyanjui, 1994-01-01 Theoretical perspectives on the crisis of development theories **Communication and Culture** S.
