Ageing Disgracefully:

Ageing Disgracefully, with Grace Michael John Lewis, 2016 A doctor was once heard to say that it is a pity we know our own age otherwise we could just say that we are as old as we feel The populations of most countries are ageing and because of this we can anticipate many years of retirement We need to make the most of this opportunity but we are faced with exhortations such as act your age Does this mean that older people should not have fun anymore but should instead conform to conventional stereotypes such as being unproductive conventional inflexible serene and no longer interested in intimacy In other words should people have to grow old gracefully The answer is no Instead we should enjoy ageing while still having fun and living life to the fullest The author Dr Mike Lewis is a psychologist and theologian who has numerous academic publications to his name including over sixty articles in peer reviewed journals two books and two book chapters His vast research experience plus being himself in the third age of life adequately qualifies him to write on the topic of making the most of the retirement years He delights in debunking the myths and stereotypes of ageing and gives many examples of individuals who have achieved great things in later life The book includes details on several ways that can help older people to cope with life including making full use of both music and humour This book is written in an accessible style that should also appeal to the interested general reader The book also includes some simple self test exercises that readers are invited to complete the results of which should help those interested to gauge their own levels of progress toward life satisfaction

101 Ways To Grow Old Disgracefully Richard de Meath, 2013-06-01 As we age our outlook on life alters teaching us that no matter how hard we struggle to hold back the clock of time We find the golden years are stress free offering a greater sense of freedom Many find the ageing experience tells you that you really are as young as you feel They see little reason to turn into caricatures of their parents or worst still their grandparents What was once regarded as old age has become the new middle age This is the time of the sixties generation revealing there is a lot to be said for enjoying yourself just for the hell of it The creators of rock music the ageing pop stars that see little reason to sit back and collect their pension now dance to a more exciting tune People over a certain age discover there is a mischievous inner self waiting to come out to play This book offers new insights into what people mean when they say they enjoy growing old disgracefully **10 easy steps**

to...Growing Older Disgracefully! , *A New Ethic of 'Older'* Bridget Garnham, 2016-10-04 Through its themes of subjectivity surgery and self stylization this book critically examines the cultural constraints and incitements that shape the practice of cosmetic surgery by older people The book problematizes anti ageing discourses to provide a nuanced descriptive ethical and political reading of older identity politics nested within the contemporary ethico political terrain of self care A New Ethic of Older aims to de territorialize the older subject from normative discourses of ageing and theorize becoming older Evidence of an active cultural politics of older emerges from the critically reflexive engagement of older people with cosmetic surgery This engagement constitutes a cutting critique of ageing discourses enmeshed in an aesthetic mode of

subjectivation that underpins a new ethics of old age The book will appeal to those in the fields of Cultural Gerontology Ageing Studies Critical Psychology Sociology and Cultural Geography The methodological approach will be of interest to academics and students exploring the application of Foucault's work on care of the self to contemporary contexts and practices
