Indian National Bibliography, B. S. Kesavan, 2016-12 The Indian National Bibliography, 2018-04 Critical Maths for Innovative Societies, Zemira Mevarech, Bracha Kramarski, 2014

How can mathematics education foster development of the skills required by innovative societies? Mathematics education is heavily emphasized worldwide but it is still considered to be a stumbling block for many students. While there is near consensus that mathematics problems appropriate for the twenty first century should be complex, unfamiliar and non-routine, CUN most of the textbooks still include mainly routine problems based on the application of ready made algorithms. The time has come to introduce innovative instructional methods to enhance mathematics education and students' ability to solve CUN tasks. Metacognitive pedagogies which explicitly train students to think about their thinking can play a key role. These pedagogies can be used to improve not just academic achievement, for example content knowledge and the ability to handle unfamiliar problems, but also affective outcomes such as anxiety and motivation. The strong relationship between metacognition and schooling outcomes has implications for both the education community and policymakers.

The Culture Media and Sport Committee's inquiry has focused on three disparate aspects of online content and behaviour, all of which are of widespread concern: illegal content, especially images of child abuse; harmful adult content being made freely available to children; bullying and harassment on social media. The Committee praises the work of the Child Exploitation and Online Protection (CEOP) Command

now part of the new National Crime Agency and the Internet Watch Foundation but calls for more resources to be devoted to their valuable work All three elements of CEOP s mission education social care and criminal justice need to be actively pursued and publicised Tracing paedophiles who share images on peer to peer networks and the so called hidden internet continues to challenge both the police and the internet service providers Legal adult pornography is widely consumed but children should be protected from viewing that material Legal adult sites could restrict access by children in a number of ways Age verification is important and whilst filters may not be failsafe they continue to improve and are an important way of protecting children from harmful content Ofcom has an important role in monitoring internet content and advising the public on online safety and more needs to be done to signpost the advice and educational resources available to both parents and teachers Today one in five 12 16 year olds think being bullied online is part of life Social media providers should offer a range of prominently displayed options for and routes to reporting harmful content and communications
