Burmese Silver from the Colonial Period Alexandra Green, 2022-01-04 This stunning catalogue presents an exceptional collection of rare Burmese silver Accompanied by detailed photographs and explanatory texts this ground breaking book proposes a new way of looking at Burmese silver Names dates places and stories identifying the who when where and what of Burmese silver has been the focus of publications on the topic Are these questions the best way to understand silver however Alexandra Green argues that they are not Too few pieces provide reliable information about silversmiths production locations and dates to allow for a comprehensive understanding of the subject Instead a close examination of silver patterns reveals strong links with Burmese art history reaching as far back as the Bagan period 11th to 13th centuries connections with contemporary artistic trends and participation within the wider world of silversmithing The first European to write about Burmese silver was H L Tilly a colonial official from the late 19th into the early 20th century Tasked with collecting objects for various fairs and exhibitions he took an interest in Burmese art publishing articles and books from the 1880s onwards While much of what he wrote was factually inaccurate and coloured by the prejudices and stereotypes common at the time his two volumes on Burmese silver published in 1902 and 1904 contain pictures of pieces from the early to mid 19th century These enable a reconstruction of how silver designs evolved as the country was absorbed into the Indian Raj and British and other Westerners became consumers of local silver products Tilly was also correct in his interest in silver designs Green uses the visual information from his books to describe the continuities and innovations of designs found on silver from the mid 19th through the mid 20th century and she places these trends within local regional and global flows of ideas Many studies of Burmese silver have been plagued by a lack of understanding of the Burmese context In contrast Green examines silver from a local perspective drawing on Burmese texts and information that allows for a nuanced view of the motifs designs and patterns that appear repetitively on silver pieces Using Graham Honeybill s collection formed over many years as a basis she explores how designs and patterns circulated around the country and were innovatively combined and recombined on pieces by silversmiths producing objects for Burmese Western and commercial clients

Burmese Silver Art David C. Owens, 2020 Burmese master silversmiths produced a magnificent body of work from the mid 19th to the early 20th centuries the Burmese Silver Age This aesthetic and functional work is characterized by a unique decorative style and superb technical artistry Many of the artefacts are embellished with mysterious visual narratives drawn from ancient religious and mythological sources communicating spiritual beliefs and values that resonate to this day Burmese silverwork is a distinct and little known genre of silver art This book tackles this obscurity by illuminating and describing for the first time 100 Burmese silver artefacts in a stunning photographic gallery This silverwork from the Noble Silver Collection represents some of the rarest and finest quality work from the Burmese Silver Age The centerpiece gallery of silverwork masterpieces is bookended by two well illustrated and informative chapters that provide readers with deeper

insights into Burmese silverwork a robust frame of reference chapter summarizes the 2 000 year history and cultural tradition of Burmese silverwork and a chapter following the gallery deciphers the complex and allegorical iconography of the decoration which gives the reader a deeper appreciation of its religious and cultural meaning and origin This book captures the great almost mystical allure of Burmese silverwork from the sublime artistry of the decoration to the extraordinary skill of the silversmith and the profound meaning and importance of the visual narratives In doing so Burmese Silver Art takes its place as a definitive reference work for any art historian collector expert student or general reader interested in this hitherto overlooked body of noble art Fraser's Magazine ,1878 **The Game-birds of India, Burma and Ceylon: Pheasants**
