Biosphere to Lithosphere Terry O'Connor, 2016-09-12 Taphonomic studies are a major methodological advance the effects of which have been felt throughout archaeology Zooarchaeologists and archaeobotanists were the first to realise how vital it was to study the entire process of how food enters the archaeological record and taphonomy brought to a close the era when the study of animal bones and plant remains from archaeological sites were regarded mainly as environmental indicators This volume is indicative of recent developments in taphonomic studies hugely diverse research areas are being explored many of which would have been totally unforeseeable only a quarter of a century ago

Death and Burial within the Ancient Levant (4500-550 BCE) Jennie Bradbury, 2025-03-28 This book offers a comprehensive survey of burial practices in the ancient Levant and challenges some of the assumptions behind previous attempts to find a normative burial practice Exploring the dazzling variety of ways in which the living deal with the dead this book utilises big data projects and legacy data to highlight the sheer diversity of burial practices in the ancient Levant Theorizing that some types of burial are significantly underrepresented this volume argues for the necessity of analysing both the existing and non existing data at multiple scales of analysis Thus rather than attempting to identify a normative or typical burial the volume highlights the multitude of ways in which the living approached and interacted with the dead across the ancient Levant from the Late Chalcolithic to the Iron Age fifth to first millennia BCE In doing so it acknowledges and foregrounds variability not only in terms of so called atypicality but also in terms of burials and practices that have been mistakenly lumped together in the drive to produce narratives of similarity and normative behaviour This volume also explores some of the broader patterns and temporal spatial shifts that shed light on wider changes in the ways in which humans perceived of the dead and themselves the living over time While predominantly focused on the modern regions of Israel Jordan Lebanon Palestine and Syria this book also engages with these broader themes across Western Asia and the Mediterranean adopting an interdisciplinary and cross cultural approach to understanding temporal and spatial variability This book is of relevance for students and researchers of Ancient Western Asia as well as those of the archaeology of death and burial

Temples and Temple-service in Ancient Israel Menahem Haran, 1985 This milestone study is a thorough examination of the various cultic and social phenomena connected with the temple activities connected with the temple's inner sphere and belonging to the priestly circle The book also seeks to demonstrate the antiquity and the historical timing of the literary crystallization of the priestly material found in the Pentateuch Contents Prologue The Israelite Temples Temples and Open Sacred Places The Priesthood and the Tribe of Levi The Aaronites and the Rest of the Levitical Tribe The

Distribution of the Levitical Tribe The Centralizations of the Cult The Priestly Image of the Tabernacle Grades of Sanctity in the Tabernacle Temple and Tabernacle The Ritual Complex Performed Inside the Temple Incense of the Court and of the Temple Interior The Symbols of the Inner Sanctum The Non Priestly Image of the Tent of Meeting The Emptying of the Inner Sanctum Pilgrim Feasts and Family Festivals and The Passover Sacrifice *Diversity and Complexity in Prehistoric Maritime Societies* Bruce J. Bourque, 2007-09-04 New England archaeology has not always been everyone's cup of tea only late in the Golden Age of nineteenth century archaeology as archaeology's focus turned westward did a few pioneers look northward as well causing a brief flurry of investigation and excavation Between 1892 and 1894 Charles C Willoughby did some exemplary excavations at three small burial sites in Bucksport Orland and Ellsworth Maine and made some models of that activity for exhibition at the Chicago World's Fair These activities were encouraged by E Putnam director of the Harvard Peabody Museum and head of anthropology at the Columbian Exposition Even earlier another director of the Peabody Jeffries Wyman spawned some real interest in the shellheaps of the Maine coast but that did not last very long Twentieth century New England archaeology specifically in Maine was for its first fifty years rather low key too with short lived but important activity by Arlo and Oric a Bates Harvard student prior to World War I Later in another Massachusetts institution the Peabody Foundation at Andover took some minor but responsible steps toward further understanding of the area's prehistoric past

The Talents of Jacopo da Varagine Steven A. Epstein, 2015-12-14 Jacopo da Varagine c 1228 1298 is remembered today primarily for his immensely popular work *The Golden Legend* a massive collection of stories about the saints Compiled over the years 1260 67 *The Golden Legend* quickly eclipsed earlier collections of saints' lives One indication of its popularity is the fact that so many manuscript copies of the work have survived more than one thousand according to some estimates Despite the enduring influence of *The Golden Legend* Jacopo remains an elusive figure because he left behind so little information about himself In *The Talents of Jacopo da Varagine* Steven A Epstein sets out to remedy this situation through a careful study of all Jacopo's works including many hundreds of sermons and his innovative chronicle of Genoese history In Epstein's sure hands Jacopo emerges as one of the most active and talented minds of his day Indeed Epstein argues that one needs to read all of Jacopo's books in a Genoese context in order to understand the original scope of his thinking which greatly influenced the ways generations of people across Europe experienced their Christianity The rich sources for Jacopo's sermons saints' lives and history illuminate the traditions that inspired him and shaped his imaginative and artistic powers Jacopo was also one of the inventors of social history and his writings reveal complex and new perspectives on family life as well as the histories of gay people slaves Jews and the medieval economy Filled with impressive insights into the intellectual life of the thirteenth century *The Talents of Jacopo da Varagine* will be of interest to a wide range of medieval scholars and students of religious history church history and hagiography as well as intellectual history and Italian history **Annual Report of the Board of Control of the New York Agricultural Experiment Station** New York State Agricultural Experiment
