Mothering Denied Peter Cook, 2008 **How to Build Your Baby's Brain** Gail Gross, 2019-09-03 Winner of the 2019 National Parenting Product Award Ranked 1 by BookAuthority for 2019 Best New Parenting Books Your child's DNA is not destiny you are at the helm guiding their course The truth is nature and nurture are in a delicate dance if one goes too fast the other one falls Science tells us that early childhood experiences have the capacity to structure and alter the brain That means you didn't just supply your child's DNA you're still shaping it And it's only by wielding this power that your child will activate their full potential You are truly a gene therapist manipulating and guiding your child's genetic makeup based on the experiences you create for them Contrary to what modern parenting trends have told us parenting is much simpler than we dared to imagine Great parenting comes down to one mission to be prepped and present for the windows of your child's development so that you can take full advantage of them and help your child become a smart successful self-sufficient adult It doesn't require formal training or a fancy degree all it takes is getting involved Once parents learn how to flip the right gene switches they can expand the limits of their child's potential and lay the emotional and intellectual groundwork that allows them to seize opportunities for success fearlessly naturally and enthusiastically With a PhD in education and a second in

psychology and forty years of experience as an educator Dr Gross combines an understanding of childhood development with practical and realistic tools to teach parents how to best take advantage of their child s developmental windows How to Build Your Baby s Brain translates the results from scientific studies about expanding consciousness and performance into day to day interaction between parents and children
