**A Brief History of the Bodleian Library** Mary Clapinson, 2015 The Bodleian Library was founded in 1602 at the University of Oxford It is one of the oldest libraries in Britain the first library to request a copyright edition of every book published in English and its original beautiful seventeenth century rooms are still in use today Spanning over four hundred years this succinct account illustrated with historical prints portraits of formidable librarians and photographs of some of the Library s most treasured items traces the development of the Bodleian s superb collections and historic buildings from its foundation by Sir Thomas Bodley to the celebration of the quatercentenary of its opening Each chapter reveals fascinating details about the lives and eccentricities of the people who have shaped the development of the Library including Bodley s vision that it would serve the republic of the learned Charles I s request to borrow a book the story of how the Library came to have not one but two editions of Shakespeare s First Folio and the fiasco surrounding King George VI s opening of the New Bodleian in 1946 In addition this book chronicles the perennial search for more space including the use of underground passages as the number of books continued to grow totalling over 11 million by the twenty first century It shows how the physical expansion of the Library from the acquisition of the Radcliffe Camera to the building of individual subject libraries across Oxford is part of the story of how the Library came to be the world renowned institution it is today **Ashgate**

**Critical Essays on Early English Lexicographers** Christine Franzen, 2017-03-02 The teaching of Latin remained important after the Conquest but Anglo Norman now became a language of instruction and from the thirteenth century onwards a language to be learned During this period English lexicographers were more numerous more identifiable and their works more varied for example the tremulous hand of Worcester created an Old English Latin glossary and Walter de Bibbesworth wrote a popular contextualized verse vocabulary of Anglo Norman country life and activities The works and techniques of Latin scholars such as Adam of Petit Point Alexander Nequam and John of Garland were influential throughout the period In addition grammarians and schoolmasters books preserve material which in some cases seems to have been written by them The material discussed ranges from a twelfth century glossary written at a minor monastic house to four large alphabetical fifteenth century dictionaries some of which were widely available Some material seems to connect with the much earlier Old English glossaries in ways not yet fully understood *The Bodleian Library, Oxford* Geoffrey Tyack, 2000 **Middle**

**English Manuscripts and their Legacies** , 2021-12-06 This volume celebrates and extends the extraordinary and transformative work of Ian Doyle on medieval manuscripts and their legacies Eighteen original contributions by eminent international scholars of manuscript studies and history of the book present new research on textual issues manuscript preservation and circulation manuscripts and print and the afterlives of manuscripts Essays adopt the multi faceted and nuanced approaches to manuscript studies and history of the book characteristic of Ian Doyle s work taking up topics to which his research has drawn attention extending his studies of particular manuscripts scribes and networks and exploring
