*Immunitas* Roberto Esposito, 2017-05-11 This book by Roberto Esposito a leading Italian political philosopher is a highly original exploration of the relationship between human bodies and societies The original function of law even before it was codified was to preserve peaceful cohabitation between people who were exposed to the risk of destructive conflict Just as the human body s immune system protects the organism from deadly incursions by viruses and other threats law also ensures the survival of the community in a life threatening situation It protects and prolongs life But the function of law as a form of immunization points to a more disturbing consideration Like the individual body the collective body can be immunized from the perceived danger only by allowing a little of what threatens it to enter its protective boundaries This means that in order to escape the clutches of death life is forced to incorporate within itself the lethal principle Starting from this reflection on the nature of immunization Esposito offers a wide ranging analysis of contemporary biopolitics Never more than at present has the demand for immunization come to characterize all aspects of our existence The more we feel at risk of being infiltrated and infected by foreign elements the more the life of the individual and society closes off within its protective boundaries forcing us to choose between a self destructive outcome and a more radical alternative based on a new conception of community

Tangled Memories Marita Sturken, 1997-02-28 Analyzing the ways U S culture has been formed and transformed in the 80s and 90s by its response to the Vietnam War and the AIDS epidemic Marita Sturken argues that each has disrupted our conventional notions of community nation consensus and American culture She examines the relationship of camera images to the production of cultural memory the mixing of fantasy and reenactment in memory the role of trauma and survivors in creating cultural comfort and how discourses of healing can smooth over the tensions of political events Sturken s discussion encompasses a brilliant comparison of the Vietnam Veterans Memorial and the AIDS Quilt her profound reading of the Memorial as a national wailing wall one whose emphasis on the veterans and war dead has allowed the discourse of heroes sacrifice and honor to resurface at the same time that it is an implicit condemnation of war is particularly compelling The book also includes discussions of the Kennedy assassination the Persian Gulf War the Challenger explosion and the Rodney King beating While debunking the image of the United States as a culture of amnesia Sturken also shows how remembering itself is a form of forgetting and how exclusion is a vital part of memory formation

The Politics of Immunity Mark Neocleous, 2022-04-05 The violence and destruction hiding behind the obsession with immunity Our contemporary political condition is obsessed with immunity The immunity of bodies and the body politic personal immunity and herd immunity how to immunize the social system against breakdown The obsession intensifies with every new crisis and the mobilization of yet more powers of war and police from quarantine to border closures and from vaccination certificates to immunological surveillance Engaging four key concepts with enormous cultural

weight Cell Self System and Sovereignty Politics of Immunity moves from philosophical biology to intellectual history and from critical theory to psychoanalysis to expose the politics underpinning the way immunity is imagined At the heart of this imagination is the way security has come to dominate the whole realm of human experience From biological cell to political subject and from physiological system to the social body immunity folds into security just as security folds into immunity The book thus opens into a critique of the violence of security and spells out immunity s tendency towards self destruction and death immunity like security can turn its aggression inwards into the autoimmune disorder Wide ranging and polemical Politics of Immunity lays down a major challenge to the ways in which the immunity of the self and the social are imagined
