The Treatment of Modern Western Medical Diseases with Chinese Medicine Bob Flaws, Philippe Sionneau, 2001

This book is a textbook and clinical manual on the treatment of modern Western medical diseases with Chinese medicine. By modern Western medical diseases we mean all the disease categories of Western medicine excluding gynecology and pediatrics. By Chinese medicine we mean standard contemporary professional Chinese medicine as taught at the two dozen provincial Chinese medical colleges in the People's Republic of China. The two main therapeutic modalities used in the practice of this style of Chinese medicine are acupuncture, moxibustion, and the internal administration of multi-ingredient Chinese medicinal formulas. Treatment plans for each disease discussed herein are given for each of these two main modalities.

Physical Appearance and Gender Linda A. Jackson, 1992-01-01. This book examines two kinds of research: research in social psychology and in clinical psychology into the effects of physical appearance on person perception. Both are explored with the objective of identifying gender similarities and differences on the effects of physical appearance. The theoretical framework for integrating the two approaches is presented with implications of this framework for future research, social change, and psychotherapy. The book demonstrates that gender must be considered in research on physical appearance effects.

The last great work of the age of reason, the final instance when all human knowledge could be presented with a single point of view.
