African Americans and Standardized Tests Veda Jarrrels,2013-06-01 With a surprisingly honest and hard hitting approach this scathing indictment of the modern black family postulates that a lack of appreciation for literacy in the African American household is the true cause of low scores on today s standardized tests Arguing that television video games rap music and sports are all distractions from much needed study time the discussion stresses the significance of literacy in a child s future and the importance of parental involvement toward shaping that future In an educational climate where most of the blame for a child s poor performance is placed upon the teachers the curricula and the social structure of the schools this discussion ultimately places the responsibility back in the hands of the family and offers them suggestions for improvement

to explain why they are using a routine or assisting students to use cognitive tools to understand how they might think more precisely about the books they read Theme Prediction Prediction is a popular request teachers make of their students but often teachers lack sufficient experience or rationale to know how students might use prediction to increase precision in thinking about books and other texts they read Approach Combination of both theoretical and research with useful tools students and teachers can implement tomorrow Many books take either a theoretical approach with little classroom application provided or a practical approach that does not help teachers understand why a given tool is useful and under what circumstances This book combines the best of both approaches to help teacher readers understand why a strategy or routine is worth the instructional time that might be devoted to it
