Dimension: The Ultimate Amalgam Margaret Newmeli, 2013-09-06. After an accident in space, Alan, Noah, Zach, and Ryan are transported to a world where they meet their favorite heroes. An amazing adventure begins with Denver the dinosaur. Noah and her friends are taken through wonders and dangers as they encounter the heroes and villains of Nootra. Considered as intruders by Nootra Security Forces, the Saiyans come to their rescue, but they all face difficulties in the Forest. Thanks to Rahan and his comrades, they manage to reach Secret Base L4, which is then attacked by Decepticons. While Autobots and X-Men try to prevent Megatron and some super villains from conquering Cybertron, the Battle of Agnam turns into a nightmare when Goten's cry awakens the Legendary Super Saiyan Broly, who comes to threaten the galaxy. Following this turn of events, Nootra forces are obliged to commit their cause in the hands of Son Goku. **Another Dimension: The Ultimate Amalgam** is the first in a series celebrating illustrious heroes and villains. It is a project of writings and songs. [Transformation: A Personal Journey Through the British Transformers Comic Volume 2: 1987-1989](#) Stuart Webb, 2017-07-11. By 1987, the British Transformers was at the peak of its powers. Alternating between US reprints showing the struggle for leadership within the Autobot and Decepticon forces and UK material dealing with the insane future Decepticon Galvatron's attempts to rule yesterday, what had started as a toy advert had become a sprawling space opera seared into the minds of an entire generation. Stuart Webb was one such reader, and in 2012 he began a journey looking through every single issue of the series, commenting on its highs and lows. He became the first person to look at every backup strip and editorial and how they worked together to create the most thorough exploration of a publishing phenomenon ever undertaken. It's also highly personal, full of humor and silliness, and even the occasionally thoughtful moment. The final result is an essential read, not just for Transformers fans but also for those interested in the history of Marvel UK and the impact this simple little comic had on an entire generation.
