Auctioning Public Assets:

Auctioning Public Assets Maarten Christiaan Wilhelmus Janssen, 2004 In many countries all over the world governments are privatising firms that were previously under public control This is happening for example in public utility sectors such as gas water and electricity in transport sectors such as rail and metro and in radio and telephony This book provides an overview of the economic issues that are involved in this transfer of ownership of public assets Combining a theoretical framework with a set of case studies of recent sales of state owned assets from Europe and the USA it asks which sort of allocation mechanism can a government adopt Which is most suited to a particular sale And how will the choice of allocation mechanism affect future market outcomes With contributions from international experts this book offers an accessible introduction to auction theory and an invaluable non technical analysis of existing knowledge It will be of interest to students non specialists and policy makers alike *Public Asset Management Companies* Caroline Cerruti, Ruth Neyens, 2016-05-31 This toolkit is designed for policy makers and stakeholders who are considering the establishment of a publicly funded asset management company AMC An AMC is a statutory body or corporation fully or partially owned by the government usually established in times of financial sector stress to assume the management of distressed assets and recoup the public cost of resolving the crisis AMCs were first used in the early 1990s in Sweden Securum and the United States the RTC and again during the Asian crisis for instance Danaharta in Malaysia KAMCO in the Republic of Korea The 2008 financial crisis marked a renewal of the use of this tool to support the resolution of financial crises for instance NAMA in Ireland SAREB in Spain The toolkit does not address broader bank resolution issues It has a narrow focus on the specific tool of a public AMC established to support bank resolution and with the objective of providing insight on the design and operational issues surrounding the creation of such AMCs It seeks to inform policy makers on issues to consider if and when planning to establish a public AMC through An analysis of recent public AMCs established as a result of the global financial crisis Detailed case studies in developed and emerging markets over three generations A toolkit approach with questions and answers including questions on design and operations that are critical for authorities confronted with the issue of whether to establish an AMC An emphasis on how to that is a practical versus a principled approach The toolkit is structured as followed Part I summarizes the findings on the preconditions the design and the operationalization of public AMCs Part II provides case studies on three generations of AMCs whose lessons are embedded in Part I The case studies cover emerging and developed markets and have been selected based on the lessons they offer **Electronic Government and the Information Systems Perspective** Andrea Kó, Francesco Buccafurri, Gabriele Kotsis, A Min Tjoa, Ismail Khalil, 2025-09-20 This book constitutes the proceedings of the 14th International Conference on Electronic Government and the Information Systems Perspective EGOVIS 2025 held in Bangkok Thailand during August 25 27 2025 The 11 full and 4 short papers included in the proceedings were carefully reviewed and selected from 29 submissions They were organized in topical
