

People born in **AUGUST**

@trustedteller

Being acknowledged for what they do is very important to them

Hesitant in opening up to people

Very fun but only around people they are comfortable with

Very accurate with their fact check's

Does not really mix with everyone, is picky

It is very easy to talk to them

Has an eye for the luxuries of life

Works very hard when they really want something

August People:

People Born In August Andrey Davydov, Olga Skorbatyuk, Kate Bazilevsky, 2017-07-15 ANTI HOROSCOPE HUMAN SOFTWARE Series of 12 books Did you know that those people who were born on August 10th of leap years or August 11th of common years are not just legislators who consider themselves ready and even obligated to order the whole world according to their own laws and make weather in any collective but also strive only for one thing to usurp the initiative in society and become masters of the largest possible public space Or for example did you know that those people who were born on August 20th of leap years or August 21st of common years not only look like Buddhist deities always smiling cheerful and benevolent but also are so life loving that they can turn even a funeral into a party with jokes and after eating and drinking well have some passionate alone time with one of the guests Hence the question are you sure that you know people whom you think you know as your own self Yes of course you know them if we take word play into account You really do know them like you know yourself that is just as bad You know your own and other people s masks and roles but that is all You do not believe this Then open this book and see for yourself This book is for those people who are fed up with horoscopism who are tired of listening to nonsense about themselves and other people from psychologists or their all knowing relatives friends and acquaintances It will help you save not just some time in your life but your whole life because otherwise you will spend your entire life on something that is a priori impossible And it is impossible not because you are idiots but because Homo sapiens cannot fully know themselves and other people without an external and most importantly objective source Perhaps that is the reason why humanity was left factory instructions to each one of us the Catalog of Human Population Yes that is right There exists the Catalog of Human Population which you can open and find out everything about any person you are interested in including yourself Information about people presented in this book and in other eleven books in the series titled Anti Horoscope Human Software is from there and not from your favorite horoscope

Strategic HR Peter Reilly, Tony Williams, 2016-04-01 HR has sought to reposition itself as a strategic contributor to organizations To facilitate this it has restructured bringing in shared services business partners and centres of expertise simplifying automating and rationalising processes and devolving some activities to managers whilst outsourcing others HR has yet to give sufficient attention to the capability of the function to deliver against the added value promise This book looks at the developments that have brought HR to its present position It sets out a vision of where HR might be headed including a definition of its role and activities It identifies a number of challenges that HR will have to face if it is to be effective These include not just skills but problems with structures and relationships with stakeholders be they line managers or employees The authors also highlight ways of monitoring HR performance and of demonstrating its value It all adds up to an authoritative reference guide for all HR directors seeking to define their role and future aims for those new to the function on the challenges they will face and for senior executives on what they should expect the added value to be from their HR
