Reid,2007-06-29 One of the most difficult tasks for a designer is to translate concepts into specific and detailed organizations of space. From Concept to Form in Landscape Design Second Edition provides vital functional techniques that make the transformation easier and more effective. This perceptive resource examines both traditional and nontraditional methods of landscape design providing the conceptual and philosophical foundations for ideas and their visual expression. The revised and expanded Second Edition includes A new chapter dealing with the creative thought process for generating ideas. Precise case studies showing sequential form evolution. Hundreds of detailed photographs to assist in visualizing various techniques. Inspiring images from nature for naturalistic form development. Atypical design examples as impetus for innovation. Accompanying web site with projects for classroom students and self learners alike. From Concept to Form in Landscape Design Second Edition presents the landscape transformation process in a highly visual manner creating both a vivid learning experience for students and a useful toolbox for working designers. Replete with compelling valuable and accessible insights for designing outdoor spaces. Reid's book is an ideal blend of inspiration and application. Transforming Landscapes Françoise Fromont,2020-02-24 Michel Desvigne is the most renowned French landscape architect in the world. Based in Paris he has held guest professorships at such distinguished institutions as the Architectural Association in London and Harvard University. Desvigne's projects have a strong strategic and conceptual component. Urban infrastructure projects play a major role and emphasize the urban planning and design expertise evident in his landscape architecture. The book documents ten of Desvigne's major projects from France the US Spain and Qatar in which he is responsible not only for the landscape architecture but for coordination of the entire project. How can such highly complex projects be realized? What does the intellectual thought process look like? What specific problems arise in their realization? **Radical Landscapes** Jane Amidon,2001-01-01 Presents over 60 projects by forward looking landscape designers using innovative materials unusual plants and unexpected forms. The book is organized into seven themes: light and colour, movement, order and objects, interaction, new contexts, urban interventions and narrative.
