Cardozo School of Law, Cardozo Law Review, Yeshiva University, 1990 **Acts of Religion** Jacques Derrida, 2013-02-01 Acts of Religion compiled in close association with Jacques Derrida brings together for the first time a number of Derrida s writings on religion and questions of faith and their relation to philosophy and political culture The essays discuss religious texts from Jewish Christian and Muslim traditions as well as religious thinkers such as Kant Levinas and Gershom Scholem and comprise pieces spanning Derrida s career The collection includes two new essays by Derrida that appear here for the first time in any language as well as a substantial introduction by Gil Anidjar that explores Derrida s return to his own religious origins and his attempts to bring to light hidden religious dimensions of the social cultural historical and political

The Pre-text of Ethics Diane Moira Duncan, 2001 The Pre Text of Ethics is a very readable introduction to both Derrida and Levinas focusing on the latter s influence on deconstruction especially on the meaning of justice and the notion of the gift Without deconstructing the beauty of Levinas s vision Diane Moira Duncan aims to show that Levinas s views on women contradict his general project which aims to defend heteronamy against philosophical narcissism This book represents an organic overview of the development of Levinas s thought and situates a critique of his phenomenology of the feminine face and philosophy of woman in this context It makes a significant contribution to the question of the ethics of deconstruction

The Sharon Kowalski Case Casey Charles, 2003 A gripping story of love and law The Sharon Kowalski Case chronicles one of the true landmarks in the fight for the rights of same sex partners fully framed for the first time within its social political and historical contexts **Legitimacy Deficit in Custom** Ben Chigara, 2001 The word custom is part of everyday vocabulary in all languages meaning the habitual behaviour of people in a particular community Once adopted by lawyers it becomes necessary to distinguish legal customs from non legal customs That distinction focuses on the creation of legal norms of customary law In international law the creation of rules of customary law has been the subject of much commentary Customary international law has been described as a mysterious phenomenon that has lost its utility Some have called for its abandonment and others for a radical reformulation of the doctrine A former judge of the International Court of Justice perceived it to be both delicate and difficult However the majority of rules of international law are customary in nature Therefore the transparency consistency and determinacy of custom the process by which rules of customary law are created is central to the legitimacy of rules of customary law This book examines the issues at the heart of this complex problem and recommends a deconstructionist approach to custom as a means of resolving the legitimacy deficit in custom *Heidegger, Levinas, Derrida: The Question of Difference* Lisa Foran, Rozemund Uljée, 2016-09-30 This book explores the relation between

Heidegger Levinas and Derrida by means of a dialogue with experts on the work of these mutually influential thinkers Each essay in this collection focuses on the relation between at least two of these three philosophers focusing on various themes such as Alterity Justice Truth and Language By contextualising these thinkers and tracing their mutually shared themes the book establishes the question of difference and its ongoing radicalization as the problem to which phenomenology must respond Heidegger s influence on Derrida and Levinas was quite substantial Derrida once claimed that his work would not have been possible without the opening of Heidegger s questions Equally as peers Derrida and Levinas commented on and critiqued each other s work By examining the differences between these thinkers on a variety of themes this book represents a philosophically enriching project and essential reading for understanding the respective projects of each of these philosophers

Beckett and Poststructuralism Anthony Uhlmann,1999-09-02 In Beckett and Poststructuralism Anthony Uhlmann offers a reading of Beckett in relation to French philosophy particularly the work of Foucault Deleuze and Guattari Levinas and Derrida Uhlmann offers a work of literary criticism that is also a piece of intellectual history emphasizing how Beckett develops a kind of critical thinking which differs from yet is just as powerful as that of philosophers who along with Beckett found themselves faced with sets of ethical problems which were thrown into sharp relief in post war France Uhlmann explores the links between ethics and physical existence in Beckett Foucault and Deleuze and Guattari and between ethics and language in Beckett Derrida and Levinas showing how post war French philosophy was powerfully affected by Beckett s work Literature is not reduced to philosophy or vice versa rather Uhlmann considers how they interrelate and overlap informing and deforming one another and how both encounter history
