Debating War Peace:

Debating War David Lorenzo, 2015-08-14 What arguments have critics of American wars and interventions put forward and what arguments do they currently employ Thomas Jefferson Henry Thoreau John Calhoun the Anti Imperialist League Herbert Hoover Charles Lindbergh Martin Luther King Jr and Ron Paul among others have criticized proposals to intervene in other countries enter wars acquire foreign territory and engage in a forward defense posture Despite cogent objections they have also generally lost the argument Why do they lose This book provides answers to these questions through a survey of oppositional arguments over time augmented by the views of contemporary critics including those of Ron Paul Chalmers Johnson and Noam Chomsky Author David J Lorenzo demonstrates how and why a significant number of arguments are dismissed as irrelevant unpatriotic overly pessimistic or radically out of the mainstream Other lines of reasoning might provide a compelling critique of wars and interventions from a wide variety of perspectives and still lose Evaluating oppositional arguments in detail allows the reader to understand problems likely to be faced in the context of policy discussions to grasp important political differences and the potential for alliances among critics and ultimately to influence decision making and America's place in the international power structure *Debating War in Chinese History*, 2013-03-18

Chinese rulers and statesmen were naturally concerned about the issue of war when to wage it when it was justified and when to avoid it Although much has been asserted about how these issues were understood in Chinese culture this work is the first study actually to focus on the debates themselves These debates at court proceeded from specific understandings of what constituted evidence and involved the practical concerns of policy as well as more general cultural values The result is a decidedly messy portrait of Chinese decision making over two millennia that is neither distinctly Chinese nor entirely generic Contributors are Parks Coble Garret Olberding David Pong Kenneth Swope Paul Van Els David Wright and Shu Hui Wu

Debating Foreign Policy in the Renaissance Marco Cesa, 2016-12-07 This book brings together 11 pairs of opposing speeches on foreign policy written by Florentine statesman and historian Francesco Guicciardini 1483-1540 freshly translated with new commentary Collectively they constitute a remarkable collection of debates on war peace alliance and more incisive and elegant the debates contain an early formulation of concepts such as the balance of power and the security dilemma ideas that are still in international politics today This book highlights the importance of Guicciardini's work for the evolution of international theory and explains why he alongside Machiavelli should be considered a leading figure of Realism
