## Decade

1920-1930

By Stephen Longstreet

The available new copies of the expensive edition provide the material for Stephen Longstreet's new novel. In the life of a single decade, on the level of which events comprehended John Christian Dickinson, "The Old Man," the crucible of the experience seems just number 10. It is a party of the crowd in the fourth decade of this century, beginning with the final experience when the house collapsed here in 1929 and ending with what may well now be history's greatest catastrophe — the second World War. Decade, therefore, is a novel to review a vivid consciousness of your own's moments and feelings. It is a story told to be related for its dramatic interest and for its story that is no more tedious than the unbridgeable sea years of innocent women.

DESCRIPTION

DECIDE is the first novel that has been submitted to Motion Picture in a long, long time in which a great capitalist is portrayed as a hero, ready to fight to the last ditch for the thousands of men in his employ, rather than the mere millions of the press. That is itself would be a strong recommendation but, further than that, reading of the first few chapters convinced the publishers that they had here a story that was destined for wide popularity. The central character, John Christian Dickinson, a hard-boiled and crafty industrialist of the old school, is a figure that the reader will remember for a long time to come. DECIDE takes up his career just before the crash of 1929 when the fortunes of the Dickinson family are at their peak, and carries him through the crash and the virtual destruction of the whole nation that he spent so many years in building.

Almost 2000 copies of this book were sent to bookshelves all over the United States. Their reaction was so favorable that three editions have been printed before publication. Special Edition, street price if bookshelves for the American Book Company, price DECIDE "was".
