Losing Our Way Bob Herbert, 2015-07-07 From longtime New York Times columnist Bob Herbert comes a wrenching portrayal of ordinary Americans struggling for survival in a nation that has lost its way In his eighteen years as an opinion columnist for The New York Times Herbert championed the working poor and the middle class After filing his last column in 2011 he set off on a journey across the country to report on Americans who were being left behind in an economy that has never fully recovered from the Great Recession The portraits of those he encountered fuel his new book *Losing Our Way* Herbert's combination of heartrending reporting and keen political analysis is the purest expression since the Occupy movement of the plight of the 99 percent The individuals and families who are paying the price of America's bad choices in recent decades form the book's emotional center an exhausted high school student in Brooklyn who works the overnight shift in a factory at minimum wage to help pay her family's rent a twenty four year old soldier from Peachtree City Georgia who loses both legs in a misguided mismanaged seemingly endless war a young woman only recently engaged who suffers devastating injuries in a tragic bridge collapse in Minneapolis and a group of parents in Pittsburgh who courageously fight back against the politicians who decimated funding for their children's schools Herbert reminds us of a time in America when unemployment was low wages and profits were high and the nation's wealth by current standards was distributed much more equitably Today the gap between the wealthy and everyone else has widened dramatically the nation's physical plant is crumbling and the inability to find decent work is a plague on a generation Herbert traces where we went wrong and spotlights the drastic and dangerous

shift of political power from ordinary Americans to the corporate and financial elite Hope for America he argues lies in a concerted push to redress that political imbalance Searing and unforgettable Losing Our Way ultimately inspires with its faith in ordinary citizens to take back their true political power and reclaim the American dream *Saturday Night* ,1959

Four phenomenon possible presents a different interpretation of a much studied topic Essays in Economic and Business
History In this unique study Andr Millard argues that despite the Beatles indisputable skill they would not have attained the
same global recognition or been as influential without the convergence of significant developments in the way music was
produced recorded sold and consumed As the Second Industrial Revolution hit full swing and baby boomers came of age the
reel to reel recorder and other technological advances sped the evolution of the music business Musicians recording studios
and record labels and music fans used and interacted with music making and playing technology in new ways Higher quality
machines made listening to records and the radio an experience that one could easily share with others even if they weren t
in the same physical space At the same time an increase in cross Atlantic commerce especially of entertainment products led
to a freer exchange of ideas and styles of expression notably among the middle and lower classes in the U S and the UK At
that point Millard argues the Beatles rode their remarkable musicianship and cultural savvy to an unprecedented bond with
their fans and spawned Beatlemania Lively and insightful Beatlemania offers a deeper understanding the days of the Fab

William Evans,2019-01-04 Carol Reed is one of the truly outstanding directors of British cinema and one whose work is long
overdue for reconsideration This major study ranges over Reed s entire career combining observation of general trends and
patterns with detailed analysis of twenty films both acknowledged masterpieces and lesser known works Evans avoids a
simplistic auteurist approach placing the films in their autobiographical socio political and cultural contexts and relating
these to the analysis of Reed s art The critical approach combines psychoanalysis gender theory and the analysis of form
Archival research is also relied on to clarify Reed s relations with his creative team financial backers and others Films
examined include Bank Holiday A Girl Must Live Odd Man Out The Fallen Idol The Third Man Night Train to Munich The
