Doing Decision Research John S. Carroll, Eric J. Johnson, 1990

The Adaptive Decision Maker John W. Payne, James R. Bettman, Eric J. Johnson, 1993-05-28 The Adaptive Decision Maker argues that people use a variety of strategies to make judgments and choices The authors introduce a model that shows how decision makers balance effort and accuracy considerations and predicts which strategy a person will use in a given situation A series of experiments testing the model are presented and the authors analyse how the model can lead to improved decisions and opportunities for further research

Persuasion Daniel J. O'Keefe, 1990-03-01 This volume provides a clear straightforward introduction to theory and research in persuasion leaving instructors free to hand pick non text materials to satisfy ancillary aims It includes a discussion of research concerning the production of persuasive messages as well as the more traditional research on the study of message effects The text also provides a careful comprehensive and critical treatment of the relevant research literature including examination of primary as well as secondary and tertiary sources consideration of a wide body of published research from diverse fields attention to avoiding premature generalizations from limited research evidence and a thorough treatment of relevant theoretical and methodological quest

Handbook of Bioethical Decisions. Volume II Erick Valdés, Juan Alberto Lecaros, 2023-06-28 The Handbook of Bioethical Decisions Volume II addresses and analyzes the most important ethical concerns and moral quandaries related to scientific integrity and institutional ethics It counts on two parts Part One Research Ethics which addresses issues related to Scientific Integrity Research Misconduct and Conducting Ethical Research and Part Two Institutional Ethics and Bioethics Committees which explores Institutional Ethics issues Ethics and Bioethics Committees roles and scopes and Bioethical Issues in Institutional Ethics Consequently the Handbook Vol II offers a remarkable collection of works by outstanding international experts on institutional and research ethics in order for bioethics practitioners to obtain better elements to address key issues related to integrity in research as well as to decision making processes In this fashion this volume is a valuable resource for professionals working on different bioethical and biomedical
