demonstrative expression of her husband Jayce's love can rescue their relationship. But Jayce's personal demons prevent him from giving her this, even though he knows that she is all that stands between him and a descent into chaos. Simultaneously, Bryan struggles to repair the breach of love in his life caused by the death of his daughter. But his wife, Jayce's sister, grows ever more distant. Charismatic social activist Faith, who longs for love but fears she will lose herself in it, unwittingly becomes the catalyst for change in the lives of all four characters. The paths of these four converge toward a tragic event as each struggles to decipher the intricacies of love lost and love found. Each discovers in their own way that love is the living core of human existence and that how we love defines who we are. The Law and Politics of Sustainability Klaus Bosselmann, Daniel S. Fogel, J.B. Ruhl, Patricia Wouters, 2010-11-30. The Law and Politics of Sustainability explores efforts made to address pressing environmental concerns through legislation, conventions, directives, treaties, and protocols. Articles explain the mechanics of environmental law, the concepts that shape sustainable development, case studies, and rulings that have set precedents; approaches to sustainable development taken by legal systems around the world; and more. Experts and scholars in the field raise provocative questions about the effectiveness of international law versus national law in protecting the environment and about the effect of current laws on future generations. They analyze the successes and shortcomings of present legal instruments, corporate and public policies, social movements, and conceptual strategies, offering readers a preview of the steps necessary to develop laws and policies that will promote genuine sustainability.
