**Dealing with the Dampers of the Soul** Robert A. Hanson,2008-02 Discouragement or depression is real and personal While separate the two moods have a definite tie between them The stages of the discouragement lead naturally to the forming of the depression While discouragement reflects an attitude of dismay and depression reflects darkness of the soul both begin with the word distraction Many are concerned with depression to the neglect of discouragement Yet to deal with depression before discouragement is like putting the cart before the horse For these reasons the author believes it is essential to deal first with the subject of discouragement If discouragement is handled God s way it will go a long way to divert or stop the path to depression Discouragement and depression have similar causes and solutions Moreover there is one key operative word connected with both which is response This book provides insights on the kind of response necessary for handling the force of both subjects Robert A Hanson has served as pastor of Bible Baptist Church in Plymouth Massachusetts for thirty six years He also served as senior chaplain for Plymouth County Jail and Correctional Facility for twenty two years The Church under his ministry has enjoyed the blessing of seeing a number enter the ministry with ten serving as Pastors Robert received his education at Providence Barrington Bible College Talbot Theological Seminary Los Angeles Theological Seminary and The Graduate School of Theology in California Beyond pastoring four churches in New England and California he has taught in both college and seminary His travels have taken him to many parts of the world including India as part of an extension teaching ministry Robert and his wife Barbara conduct Straight to the Heart and Road to Renewal conferences in various churches The Hansons have five children and seventeen grandchildren

**Subordination and Defeat** Leon Sloman,Paul Gilbert,2000-03-01 Most people now accept that human beings are the product of millions of years of mammalian evolution and more recently primate evolution This landmark book explores the implications of our evolutionary history for theories and therapies of depression In particular the focus is on how social conflict has shaped various behavioral and psychophysiological systems Special attention is given to the evolved mechanisms for dealing with social defeat and subordination in both animals and humans By linking human depression to the activation of ancient psychobiological programs for dealing with social conflict one is able to understand the function of depression within groups family systems and between individuals and begin to distinguish depressions that may have adaptive functions from those that are the result of maladaptive feedback systems Although many acknowledge the need for an integrated biopsychosocial theory of psychopathology there continue to be great divisions among social psychological and biological approaches Sloman and Gilbert have brought together leading scientists and clinicians representing different disciplines and schools to present a provocative new evolutionary model of depression This model illuminates old problems in new ways links

a common disabling condition to evolved mental mechanisms and points to potential new approaches to prevention and intervention The book will be of compelling interest to all those who study or treat mood disorders
