**The Aarhus Convention** ,2014 United Nations publication sales no E 13 II E 3 Page 4 of cover **The Aarhus Convention** ,2000 **The Aarhus Convention** United Nations,United Nations. Economic Commission for Europe,Regional Environmental Center for Central and Eastern Europe,2013 **Law and Practice on Public Participation in Environmental Matters** Uzuazo Etemire,2015-07-20 Public participation has become a recurring theme and a topical issue in the field of international environmental law with many multilateral environmental instruments calling on states to guarantee effectively the concept in their laws and practices This book focuses on public participation in environmental governance in terms of public access to environmental information and public participation in environmental decision making processes Drawing on the body of international best practice principles in environmental law and taking a comparative stance Uzuazo Etemire takes Nigeria as a key case evaluating its procedural laws and practices in relation to public access to information and participation in decision making in environmental matters In working to clarify and deepen understanding of the current status of environmental public participation rights in Nigeria the book addresses key issues in environmental governance for developing and transitional countries and the potential for public participation to improve the state of the environment and public wellbeing This book will be of great interest to undergraduate students as further reading and post graduate students academics researchers relevant government agencies and departments policy makers and NGOs in the fields of international environmental law environmental justice environmental natural resource management development studies and international finance *Environmental NGOs and Access to Justice before the CJEU* Mario Pagano,2025-11-13 This book tells a fascinating legal mobilisation story Analysing EU environmental litigation over the last 30 years it illustrates how the European environmental movement has patiently attempted and succeeded in expanding access to justice opportunities before the EU Courts This is despite the longstanding reluctance of the EU Court of Justice to soften its standing requirements for private applicants bringing cases directly to Luxembourg This research draws on both doctrinal analysis and qualitative methods of socio legal inquiry At its heart are interviews with key stakeholders environmental lawyers plaintiffs and activists which give an invaluable and innovative perspective on strategic litigation before the EU judiciary With the growing emergency posed by the climate crisis and resultant increased litigation this book makes a significant scholarly contribution to the study of environmental movements to our conceptualisation of legal mobilisation and to our understanding of the impact of litigation in European environmental law [Environmental Law Across Cultures](#) Kirk W. Junker,2019-12-09 This book provides a practical functional comparison among various institutions tools implementation practices and norms in environmental law across legal cultures This is a new approach that focuses on the act of comparison looking at legal practice from the ground up including the perspective of citizens Most literature on comparative environmental law either focuses on a two way comparison of state jurisdictions or simply juxtaposes environmental features

of two or more state jurisdictions without engaging in any analysis of the comparison However this book treats legal cultures as the objects of comparison as it provides practical comparisons among various institutions tools and norms in environmental law The arrangement and organisation of the material reverses the more traditional presentation of comparative environmental law as a series of countries within which separate descriptions are respectively presented In this book the reader is presented with environmental legal themes with examples and case studies drawn from various cultures that are compared in order to help understand the theme Case studies draw on the authors experiences in a range of legal cultures including in Australia Brazil China Chile Ethiopia Germany India Nigeria Slovakia and the USA The comparative nature of the book allows domestic professionals to develop skills to enable them to understand and advocate broader contexts for clients and helps students become more aware of specific legal systems while questioning why their own system functions or does not function as it does The book is aimed at advanced undergraduate and postgraduate students of environmental law as well as researchers and practitioners

**The European Atomic Energy Community in the European Union Context** Ilina Cenevska,2016-04-26 Ilina Cenevska s new book The European Atomic Energy Community in the European Union Context The Outsider Within explores the unique nature of the Euratom Community as an entity that establishes a supranational regulation in the civil nuclear industry which while formally belonging to the European Union construct is coincidentally somewhat kept outside the mainstream developments in the Union The book surveys Euratom s status as an outsider within the European Union through the correlation between the principles and mechanisms particular to the functioning of the Euratom legal framework and those devised under the Union framework stricto sensu focusing on two specific areas nuclear safeguards and health and safety in the nuclear domain

**Human Rights and Environmental Protection** Marek Prityi,2024-11-15 This book explores the complex relationship between human rights and environmental protection It analyzes the concept of environmental procedural rights from a comparative perspective in the European Union India and China Arguing the need to apply a holistic approach which acknowledges the interlinkages between democracy environmental protection and climate change it examines both theoretical and practical dimensions of the topic with case studies drawn from empirical research The work highlights the important role of environmental procedural rights at the intersection of environmental law and human rights emphasizing the need for effective channels of communication between citizens and public authorities The study calls for the taking into account of non binding recommendations such as the Maastricht Recommendations on Promoting Effective Public Participation in Environmental Matters for developing public participation procedures in a manner that allows authorities to tailor these to the needs and situations of marginalized people The book will be a valuable resource for academics researchers and policy makers working in the areas of environmental law international human rights law and transnational law and governance

**Shaping Internet Governance: Regulatory Challenges** Rolf H. Weber,2010-03-10 The information society is a key issue in everyday life and a phenomenon enc passing

social cultural economic and legal facets Currently an information society s legal framework is gradually crystallizing under the newly introduced term of Internet governance During the last few years intensive discussions about the contents of Internet governance have addressed manifold aspects of a possible regulatory regime In light of the general comprehension that an international treaty structure is mi ing and that self regulation as a normative model does not suffice in all respects new architectural and constitutional theories have been developed furthermore the international body of the Internet Governance Forum IGF came to life N withstanding the available literature on IGF however a thorough and systematic study shedding light on the main topics of Internet governance such as legitimacy transparency accountability and participation and on the key regulatory issues for example critical Internet resources access protection of civil liberties man rights realization of security safety and privacy standards as well as the overcoming of the digital divide from a legal perspective is not yet at hand The present publication aims at discussing these legal challenges This book has benefited from many inputs and encouragements from colleagues that I am deeply grateful for In particular I am indebted to the very meaningful discussions and valuable support in the preparation of the publication by my search assistants lic iur Mirin a Grosz and lic iurR omana Weber to lic iur
