Challenge And Promise Of A Catholic University:

The Challenge and Promise of a Catholic University Theodore Martin Hesburgh, 1994 This is a position paper with contributions from a range of academics on the question of how a Catholic university can preserve its character while avoiding both secularisation and insular sectarianism *Hesburgh of Notre Dame* Todd C. Ream, Michael J. James, 2022-11-25 This volume is the first comprehensive assessment of the life and legacy of Father Theodore Hesburgh 1917-2015 an educator priest public servant and long serving President of the University of Notre Dame Despite being a transformative figure in Catholic higher education who led the University of Notre Dame for 35 years and wielded influence with US presidents on civil rights and other charged issues of his era secular accounts of history often neglect to assess the efforts of religious figures such as Hesburgh In this volume the editors and their authors turn a fair minded but critical eye to the priest's record to evaluate where he fits into the long development of Catholic higher education and Catholics role in American public life

Seeing the Light Samuel Schuman, 2010-01-18 Samuel Schuman examines the place of religious colleges and universities particularly evangelical Protestant institutions in contemporary American higher education Many faith based schools are flourishing They have rigorous academic standards impressive student recruitment ambitious philanthropic goals and well maintained campuses and facilities Yet much of the U S higher education community ignores them or accords them little respect *Seeing the Light* considers instead what can be learned from the viability of these institutions The book begins with a history of post secondary U S education from the perspective of the religious traditions from which it arose After focusing briefly on nonevangelical institutions Schuman next looks at three Roman Catholic institutions the College of New Rochelle Villanova University and Thomas Aquinas College He then profiles evangelical colleges and universities in detail discovering the factors contributing to their success These institutions range from nationally recognized to little known from rich to poor with both highly selective and open admission requirements Interviews with key administrators faculty and students reveal the challenges the successes and the goals of these institutions Schuman concludes that these schools Baylor University Anderson University New Saint Andrews College Calvin College North Park University George Fox University Westmont College Oral Roberts University Northwestern College and Wheaton College and others like them offer important and timely lessons for the broader higher education community

Irian Jaya, the Land of Challenges and Promises, 1987 *Curriculum Challenges for Universities* James Nyland, David Davies, 2022-03-01 This book develops a progressive program of engagement with issues problems and critical thinking which helps universities and students understand and engage with some of the key issues of our time It focuses on curriculum concerns and presents a sustained and critical analysis and dialogue about knowledge culture and ways of seeing important issues This book provides critical and analytical insights into the importance of the emergence of mass higher education into public awareness It explores what is termed contested knowledge as part of modern students experiences and

expectations By broadcasting some of the future prospects for a democratic university especially in relation to its communities it highlights the need to grasp the significance of global change and instability in teaching and learning and how an adequate curriculum in higher education can be constructed to address the issues that arise

Religion Index Two,1996 **The American Benedictine Review**,2021 *Resources in Education*,1996 **The Future of Religious Colleges** Paul John Dovre,2002 Building on competent historical and analytical studies of the past decade the contributors consider the state of religious education generally explore the relationship between religious colleges and their sponsoring churches probe a number of successful educational models and examine the influence of public policy on religious colleges

Go Forth and Do Good Wilson D. Miscamble,2003 Although the first proper Notre Dame commencement conferring degrees on two candidates took place in 1849 General William Tecumseh Sherman was Notre Dame s first graduation speaker with a truly national reputation He attended Notre Dame s ceremony in 1865 just months after accepting the surrender of General Joseph E Johnston s Confederate army Sherman whose sons had been students at Notre Dame came less to give an address than to utter words of thanks for the kindness shown to his family who had found refuge in the area during the war When prevailed upon to speak he offered some extemporaneous remarks calling on Notre Dame graduates and students to be ready at all times to perform bravely the battle of life

Journal for the Scientific Study of Religion,2004 Official journal of the Society for the Scientific Study of Religion JSSR was founded in 1949 by students of religion and of social science in order to stimulate and communicate significant scientific research on religious institutions and experience

Heart of the World, Center of the Church David L. Schindler,1996 David Schindler argues for a fresh understanding of the relationship between church and world seeking to avoid the two theological extremes of the liberationist approach and the neo conservative liberal approach that are currently tearing the Church apart

Conflicting Allegiances Michael L. Budde,John Wesley Wright,2004 Boldly challenges Christians to rethink liberal assumptions about higher education envisioning a church centered education

[Models for Christian Higher Education](#) Richard Thomas Hughes,William B. Adrian,1997 This is a print on demand book and is therefore non returnable This timely look at the state of Christian higher education in America contains descriptive historical narratives that explore how fourteen Christian colleges and universities are successfully integrating faith and learning on their campuses despite the challenges posed by the increasingly pluralistic nature of modern culture Written by respected representatives from seven major faith traditions Roman Catholic Lutheran Reformed Mennonite Evangelical Wesleyan Holiness and Baptist Restorationist these narratives are also preceded by introductory essays that define the worldview and theological heritage of each given tradition and ask what that tradition can contribute to the task of higher education

Seattle University Law Review,1999 *Academic Freedom and Christian Scholarship* Anthony J. Diekema,2000 The dawning of the third millennium finds many Christian colleges and universities in a search for identity Coming to grips with the confused often maligned topic of academic freedom

is an essential part of this search In this volume an unabashed defender of academic freedom offers well founded advice to an academy that has seemingly lost its way Drawing on forty years in higher education including twenty years as president of Calvin College Anthony Diekema reflects on the extensive scholarly literature on academic freedom against the backdrop of personal experience He develops the larger philosophical framework necessary for thinking about academic freedom but also offers pointed advice gleaned from specific events and challenges to academic freedom that he has personally confronted This balanced approach provides a seasoned perspective for those struggling with the subject of academic freedom in their own institutions In the course of the book Diekema develops a sound working definition of the concept of academic freedom assesses the threats it faces acknowledges the significance of worldview in its implementation and explores the policy implications for its protection and promotion in Christian colleges **Crisis** ,1995 A journal of lay Catholic opinion

Origins ,1995 **The Challenge and Promise of Catholic Higher Education** Kathy Ann Herrick,2011 Twenty years after Ex Corde Ecclesiae the papal proclamation that defined the relationship between the Catholic Church and Catholic institutions of higher education these institutions continue to seek ways to strengthen their Catholic identities As they do so they are faced with a declining number of religiously vowed men and women available to lead them An institution's history is often linked to the mission of its founding congregation As members of the congregation become less actively involved the connection of the institution's mission to the founding congregation and their particular charism is likely less visibly evident Additionally the role of the American university president today is viewed by many to be an almost impossible job As members of the laity are increasingly assuming the leadership of these institutions it is important to presidents their institutions boards and founding congregations to have a deeper understanding of how the lay president understands the role of supporting and advancing the Catholic mission and how the lay president is prepared to do so This dissertation provides a broad review of the history of the mission of Catholic institutions of higher education and of the changing role of the American college president particularly presidents of Catholic institutions An in depth qualitative study of one current lay president with ten years of service utilizing interviews observations and artifact document reviews was conducted Three major themes emerged from the data the significance of the president's own Catholic identity his vocation as a Catholic educator and the intentionality of his leadership for mission specifically The president's leadership style is also discussed in relationship to the success of the institution he leads and in context with the leadership styles described in Catholic Higher Education A Culture in Crisis Morey and Piderit 2006 [The Vatican and Permanent Neutrality](#) Marshall J. Breger,Herbert R. Reginbogin,2022-03-22 The essays in this book cover a fast paced 150 years of Vatican diplomacy starting from the fall of the Papal States in 1870 to the present day They trace the transformation of the Vatican from a state like any other to an entity uniquely providing spiritual and moral sustenance in world affairs In particular the book details the Holy See's use of neutrality as a tool and the principal statecraft in its diplomatic portmanteau This concept of permanent neutrality as codified

in the Lateran Treaties of 1929 is a central concept adding to the Vatican's uniqueness and as a result the analysis of its policies does not easily fit within standard international relations or foreign policy scholarship. These essays consider in detail the Vatican's history with permanent neutrality and its application in diplomacy toward delicate situations, as for instance *vis à vis* Fascist Italy, Nazi Germany, and Imperial Japan, but also in the international relations of the Cold War in debates about nuclear non-proliferation or outreach toward the third world, including Cuba and Venezuela. The book also considers the ineluctable tension between pastoral teachings and *realpolitik* as the church faces a reckoning with its history.
