Challengers Of The Unknown Archives:

Challengers of the Unknown Archives, **Challengers of the Unknown Archives** Jack Kirby, Dave Wood, Ed Herron, 2003 his volume reprints the original 1950s tales of four death defying adventurers and their impossible and unimaginable exploits

Comic Books and the Cold War, 1946-1962 Chris York, Rafiel York, 2014-01-10 Conventional wisdom holds that comic books of the post World War II era are poorly drawn and poorly written publications notable only for the furor they raised Contributors to this thoughtful collection however demonstrate that these comics constitute complex cultural documents that create a dialogue between mainstream values and alternative beliefs that question or complicate the grand narratives of the era Close analysis of individual titles including EC comics Superman romance comics and other more obscure works reveals the ways Cold War culture from atomic anxieties and the nuclear family to communist hysteria and social inequalities manifests itself in the comic books of the era By illuminating the complexities of mid century graphic novels this study demonstrates that postwar popular culture was far from monolithic in its representation of American values and beliefs

Michael Allred Christopher Irving, 2015-10-15 Michael Allred b 1962 stands out for his blend of spiritual and philosophical approaches with an art style reminiscent of 1960s era superhero comics which creates a mixture of both postmodernism and nostalgia His childhood came during an era where pop art and camp embraced elements of kitsch and pastiche and introduced them into the lexicon of popular culture

Allred's use of both in his work as a cartoonist on his signature comic book Madman in the early 1990s offset the veiled autobiography of his own spiritual journey through Mormonism and struggles with existentialism. Thematically Allred's work deals heavily with the afterlife as his creations struggle with the grander questions whether his modern Frankenstein hero Madman, cosmic rock n roller Red Rocket 7, the undead heroine of iZombie co-created with writer Chris Roberson, or the cast of superhero team book The Atomics. Allred also enjoys a position in the creator-driven generation that informs the current batch of independent cartoonists and has experienced his own brush with a major Hollywood studio's aborted film adaptation of Madman. Allred's other brushes with Hollywood include an independent adaptation of his comic book The G Men from Hell, an appearance as himself in Kevin Smith's romantic comedy Chasing Amy where he provided illustrations for a fictitious comic book, the television adaptation of iZombie, and an ongoing relationship with director Robert Rodriguez on a future Madman film. Michael Allred Conversations features several interviews with the cartoonist from the early days of Madman's success through to his current mainstream work for Marvel Comics. To read them is to not only witness the ever-changing state of the comic book industry but also to document Allred's growth as a creative genius.
