## **Challenges To Party Government:**

*Challenges to Party Government* John Kenneth White, Jerome M. Mileur, 1992 Former British Prime Minister Benjamin Disraeli once commented that in times of great political change and rapid political transition it will generally be observed that political parties find it convenient to rebaptize themselves Fifty years after the publication of E E Schattschneider's Party Government and forty two years after the publication of *Toward a More Responsible Two Party System* distinguished scholars including Everett Carl Ladd Wilson Carey McWilliams John S Jackson III Sidney M Milkis and scholar congressmen David E Price D NC and William M Thomas R CA reevaluate the long standing assumptions that surround the responsible parties argument In this collection of essays edited by John Kenneth White and Jerome M Mileur contributors voice their perspectives on the challenges confronting the party system of government in the United States Elections in which the party system fails to frame issues satisfactorily and the rise of an American state without the helping hand of parties to run it have all contributed to a political crisis of confidence in party government Indeed White recently termed Ross Perot's candidacy a wake up call for Democrats and Republicans Still while their analysis of current party government acknowledges problems these authors favor a resurgence of the party system arguing that political parties are the indispensable instruments of communication between our country's voters and their elected officials For those political scientists elected officials and voters who share their wish immersing these once grand institutions into the born again waters of a Disraeli type baptism remains the single most important challenge of the decade ahead

*Prime Ministers and Party Governments in Central and Eastern Europe* Florian Grotz, Marko Kukec, 2023-09-19 This book focuses on Prime Ministers PMs in the post communist democracies of Central and Eastern Europe CEE It shows how the survival of PMs in chief executive office depends on their interrelations with other actors in three different arenas The first arena encompasses the linkages between PMs and their parties In this respect being a party leader is a major power resource for PMs to retain office even under critical circumstances At the heart of the second arena is the PMs relationship to other parliamentary parties In this regard the high fragmentation and fluidity of many post communist party systems pose enormous challenges for PMs to secure constant parliamentary support In the third arena PMs are confronted with state presidents Given their relatively strong powers in most CEE countries presidents may use their constitutional powers to interfere in the political domain of PMs and thus jeopardise the stability of party governments The book offers new evidence on these relationships from case studies and a broader comparative perspective This volume will be of great use to students and researchers interested in comparative politics and government European studies as well as political leadership The chapters in this book were originally published as a special issue of *East European Politics* and are accompanied by a revised introduction and a new conclusion

**Challenges to Political Parties** Kaare Strøm, Lars Svåsand, 1997 A unique inquiry into the long term prospects for political parties

*The Technocratic Challenge to Democracy* Eri Bertsou, Daniele Caramani, 2020-03-09 This book

represents the first comprehensive study of how technocracy currently challenges representative democracy and asks how technocratic politics undermines democratic legitimacy How strong is its challenge to democratic institutions The book offers a solid theory and conceptualization of technocratic politics and the technocratic challenge is analyzed empirically at all levels of the national and supra national institutions and actors such as cabinets parties the EU independent bodies central banks and direct democratic campaigns in a comparative and policy perspective It takes an in depth analysis addressing elitism meritocracy de politicization efficiency neutrality reliance on science and distrust toward party politics and ideologies and their impact when pitched against democratic responsiveness accountability citizens input and pluralist competition In the current crisis of democracy this book assesses the effects of the technocratic critique against representative institutions which are perceived to be unable to deal with complex and global problems It analyzes demands for competent and responsible policy making in combination with the simultaneous populist resistance to experts The book will be of key interest to scholars and students of comparative politics political theory policy analysis multi level governance as well as practitioners working in bureaucracies media think tanks and policy making

**Social Democracy and the Challenge of European Union** Robert Ladrech,2000 He also explores what this new form of political activity means for European politics arguing that the traditional positions of left and right may be becoming increasingly significant within the EU s evolving transnational political culture *Challenges of Party-Building in Latin America* Steven Levitsky,James Loxton,Brandon Van Dyck,Jorge I. Domínguez,2016-10-13 This book presents a new and conflict centered theory of successful party building drawing on diverse cases from across Latin America **The Challenge of Facts** William Graham Sumner,1914

*Responsible Partisanship?* John Clifford Green,Paul S. Herrnson,2002 More than fifty years have passed since the American Political Science Association published *Toward a More Responsible Two Party System* a controversial report that addressed the lack of national cohesion within the major parties Although parties have changed a great deal since then they remain a critical component of American democracy While the possibilities and limits of responsible party government have been central topics in the literature since 1950 this book is the first to reassess all aspects of the APSA report Here a distinguished group of scholars among them Charles O Jones Barbara Sinclair Frank J Sorauf John Bibby and Gerald Pomper examine the effectiveness accountability and relevance of parties to the democratic process These articles cover all major relevant topics focusing on recent changes in laws that govern parties innovations in party organization party finance and the relationships among political consultants and parties They examine the place of the party in government including chapters on the changing role of parties in Congress and in the presidency and also consider the roles of parties among the electorate examining trends in voting behavior party identification and ideology A capstone essay by Leon Epstein the dean of American party scholars reviews the ongoing quest for responsible partisanship over the past half century These contributors offer a mixed assessment of the two party system showing that parties are in many respects stronger at the national level than they

were in 1950 but not necessarily more responsible The most comprehensive description and analysis of American parties now available Responsible Partisanship should become required reading for all students and citizens concerned with making parties more accountable instruments of government Russia, a Warning and a Challenge Sherwood Eddy,1923 **The Dominant Party System** Heidi Brooks,2004 *The Challenge of Agriculture* Melville H. Staples,1921 *Government of Oklahoma* Frederick Frank Blachly,Miriam Eulalie Oatman,1924 The Challenge William Gibbs McAdoo,1928 The Moral and Religious Challenge of Our Times Henry Churchill King,1917 *Good Government* ,1924 **Labor's Challenge to the Social Order** John Graham Brooks,1920 Current Law ,1907 **Current American Government** Robert A.
