## **Changing Tunes:**

Changing Tunes Phil Powrie, Robynn Jeananne Stilwell, 2006 The study of pre existing film music is a well established part of Film Studies covering classical music and popular music Generally these broad musical types are studied in isolation This anthology brings them together in twelve focused case studies The first section explores art music it revolves around the debate on the relation between the aural and visual tracks and whether pre existing music has an integrative function or not The second section is devoted to popular music in film and shows how very similar the functions of popular music in film are to the supposedly more elite classical music and opera

### **Strengths-Based Approaches to Crime and Substance Use**

David Best, Charlotte Colman, 2019-09-30 Although there is a strong and growing literature in the two areas of desistance and addiction recovery they have developed along parallel pathways with little systematic assessment of the empirical evidence about the co occurrence of the relationship or how one area can learn from the other This book aims to fill that gap by bringing together emerging literature on the relationship between offending and substance use Instead of focusing on the active period of its onset and persistence this book examines the mechanisms that support desistance addiction recovery and the common themes of reintegration and rehabilitation With contributions from a wide range of international experts in the fields of desistance and addiction recovery the book focuses on a strengths based relational and community focused approach to long term change in offending and drug using populations as well as the shared barriers to effective reintegration for both This book will be highly informative for a wide audience from academics and students interested in studying desistance and recovery to those working in addiction services and the criminal justice system as well as policy makers and the people undertaking their own journeys to desistance and recovery

### **Music-Making in U.S. Prisons** Mary L. Cohen, Stuart P. Duncan, 2022-11-08

The U S incarceration machine imprisons more people than in any other country Music Making in U S Prisons looks at the role music making can play in achieving goals of accountability and healing that challenge the widespread assumption that prisons and punishment keep societies safe The book s synthesis of historical research contemporary practices and pedagogies of music making inside prisons reveals that prior to the 1970s tough on crime era choirs instrumental ensembles and radio shows bridged lives inside and outside prisons Mass incarceration had a significant negative impact on music programs Despite this setback current programs testify to the potency of music education to support personal and social growth for people experiencing incarceration and deepen social awareness of the humanity found behind prison walls Cohen and Duncan argue that music making creates opportunities to humanize the complexity of crime sustain meaningful relationships between incarcerated individuals and their families and build social awareness of the prison industrial complex

The authors combine scholarship and personal experience to guide music educators music aficionados and social activists to create restorative social practices through music making
