Changing State Of Youth

Linda Goldman

Changing State Of Youth:

Youth Resistance Research and Theories of Change Eve Tuck, K. Wayne Yang, 2013-11-26 Youth resistance has become a pressing global phenomenon to which many educators and researchers have looked for inspiration and or with chagrin. Although the topic of much discussion and debate it remains dramatically under theorized particularly in terms of theories of change. Resistance has been a prominent concern of educational research for several decades yet understandings of youth resistance frequently lack complexity often seize upon convenient examples to confirm entrenched ideas about social change and overly regulate what counts as progress. As this comprehensive volume illustrates understanding and researching youth resistance requires much more than a one dimensional theory. **Youth Resistance Research and Theories of Change** provides readers with new ways to see and engage youth resistance to educational injustices. This volume features interviews with prominent theorists including Signithia Fordham, James C. Scott, Michelle Fine, Robin D. G. Kelley, Gerald Vizenor and Pedro Noguera reflecting on their own work in light of contemporary uprisings, neoliberal crises and the impact of new technologies globally. Chapters presenting new studies in youth resistance exemplify approaches which move beyond calcified theories of resistance. Essays on needed interventions to youth resistance research provide guidance for further study. As a whole this rich volume challenges current thinking on resistance and extends new trajectories for research collaboration and justice.

Climate Change and Youth Linda Goldman, 2022-05-10 **Climate Change and Youth** is a pioneering book that opens the door to understanding the profound impact climate change has on the mental health of today's young people. Chapters provide age appropriate language for a meaningful dialogue and resources for acknowledging children's voices, separating fact from fiction about environmental issues, encouraging participation in activism, creating tools to reduce stress and highlighting inspirational role models and organizations for action. The book includes firsthand examples, research, children's work, interviews and terminology. It also shares age appropriate resources and websites relating to climate change and challenges. Filling a large void in the literature on this topic, this essential resource offers techniques and tools that professionals and caring adults can use to address the stresses associated with climate change and offer strategies for hope, resilience and action.

Youth Leading Change Katrina Leclerc, Erika Isabel Bulan Yague, Helen Berents, 2025-10-02 This volume brings together young scholar practitioners who draw on their own lived expertise and academic practice to examine how youth navigate complex socio-cultural and political conflicts to bring about social and cultural change, creating space for positive peace despite decades of compounding crises. Contributors draw on expert knowledge and practice in a truly global range of contexts covering Latin America and the Caribbean, Central and West Africa, Southeast Asia, the Middle East and Eastern Europe. The specific insights of each chapter are situated in relation to the global policy architecture of the Youth, Peace and Security agenda established by the UN Security Council, linking local and global contexts and extending limited but rapidly growing attention to youth as knowledge producers on peace and conflict.
