Geniuses David W. Galenson, 2011-06-27 When in their lives do great artists produce their greatest art Do they strive for creative perfection throughout decades of painstaking and frustrating experimentation or do they achieve it confidently and decisively through meticulous planning that yields masterpieces early in their lives By examining the careers not only of great painters but also of important sculptors poets novelists and movie directors *Old Masters and Young Geniuses* offers a profound new understanding of artistic creativity Using a wide range of evidence David Galenson demonstrates that there are two fundamentally different approaches to innovation and that each is associated with a distinct pattern of discovery over a lifetime Experimental innovators work by trial and error and arrive at their major contributions gradually late in life In contrast conceptual innovators make sudden breakthroughs by formulating new ideas usually at an early age Galenson shows why such artists as Michelangelo Rembrandt C zanne Jackson Pollock Virginia Woolf Robert Frost and Alfred Hitchcock were experimental old masters and why Vermeer van Gogh Picasso Herman Melville James Joyce Sylvia Plath and Orson Welles were conceptual young geniuses He also explains how this changes our understanding of art and its past Experimental innovators seek and conceptual innovators find By illuminating the differences between them this pioneering book provides

Impressionism and Post-Impressionism Nathalia Brodskaiia,2018-03-13 Impressionism is the most famous artistic movement But what appears today as a charming and exquisite landscape painting was actually one of the first avant garde movements whose members had decided to fight the values of traditional art The impressionist outdoor paintings shocked the public by the technique used but also by their apparent banality As Monet Sisley Pissarro and many others sought to capture the ephemeral nature of light the next generation would reject naturalism Indeed post impressionists such as Gauguin Van Gogh C zanne and Seurat favored the subjective rather than the objective and the eternal rather than the concrete In doing so they laid the formal foundations of 20th century modern art This book is a visual guide through the crucial moments in the history of art and the progression of the 19th century to modernity **Impressionism** Natal'ia Valentinovna Brodskaiia,2005 **The Painter in History** Ernest Henry Short,1929 *Museum News* ,1927 Monnett Family Genealogy ,1911 Scribner's Magazine ... ,1911 **Scribner's Magazine** Edward Livermore Burlingame,Robert Bridges,Alfred Sheppard Dashiell,Harlan Logan,1927 **Impressionism** Natal'ia Valentinovna Brodskaiia,2007 The Cambridge Handbook of Thinking and Reasoning Keith J.
