Cognition in Context** Wolde, 2021-10-01 This volume deals with the song of wisdom in Job 28 as it is analysed by scholars in biblical exegesis Hebrew lexicography and cognitive linguistics A colloquium organised by the Royal Netherlands Academy of Arts and Sciences Amsterdam 2002 of experts in these three disciplines showed that exploring the common ground is worthwhile The proceedings of this conference presented here under the title Job 28 Cognition in Context not only indicate the

possibilities of Hebrew semantics and cognitive approaches to the Hebrew Bible but rather severely expose the unsatisfactory simplicity with which the bifurcation of so called historical and literary approaches to or readings of the biblical text is still regarded in the exegetical disciplines

*The Nature of Things* Graham Buxton, Norman C. Habel, 2016-11-16 In 2015 a conference on Rediscovering the Spiritual in God s Creation was held at the Serafino winery complex in the McLaren Vale region of South Australia The aim of the

conference was not to seek consensus but to survey the landscape with a view to intentional responsible action in caring for God's creation. Delegates were challenged to recognize their own worldviews and to widen their horizons to encompass the enormity of the transcendence and immanence of God's presence in all creation. A group of leading international scholars and experts in the fields of science, ecology, theology, and ethics participated in a multidisciplinary conversation on the spiritual in creation with the aim of discovering fresh horizons with regard to creation, care, liturgy, justice, and discipleship within the Christian community. The chapters in this volume reflect the diversity of perspectives summarized in The Serafino Declaration which was crafted towards the end of the conference. This declaration which opens the volume outlines a range of views relating to the presence of the spiritual in creation, views that are both traditional and radical. This volume highlights the current concern over ecological destruction and finds sources of inspiration in the deepest roots of our traditions and forms of spirituality to sustain efforts towards custodianship of the land and care for God's creation.
