Finding God in the Rubble of Numbers Ruth M.

Penksa, 2013-02-28 As I thought of writing a second book my mind drifted toward a theme to draw out my thoughts I don't know when numbers became the tool the angle I'd use to tell my stories Perhaps it was my frequent trips down Hertel Avenue that suggested the use of numbers I would glance to the left at a small shop and memories of my dad and his watch repair shop would quickly emerge Vivid pictures flashed in my mind's eye dad bent over his work bench or standing in front of the shop near a window marked Jewelry Repair Today my eye rests on the number 638 the same number the address of the shop of my memories The first episode I wrote thus emerged 638 The Watchmakers Shop It was a deciding moment I would reach into my life to tell the stories based on the numbers that would be associated with each Thus I began to seek out those numbers They might refer to dates years months addresses age room numbers school numbers grades in school a count of items or people and on and on The point each provoked a story to tell However the real story the story intended for the reader is hidden in the scriptural reflection that follows each episode Here the reader is exposed to the Word of God Here the reader will find the place for his story and is able to find God in the rubble of his own life and numbers if he but listen Although each episode is related to a number they were written randomly The reader will read them in numerical order beginning with 1 and ending with 10 Something came to my attention as I was well into writing I received an email that asked the question Do you know why 1 is one 2 is two 3 is three 4 is four I enjoyed the logic that traced them 1 9 that attached number with its numeral The answer is There are angles Very interesting is 0 For a peek at numbers from this angle for your information be it fact or fiction I have included pictures and internet info showing the primitive forms of numbers known as Arabic algorithms rather than Roman algorithms However the queen of internet encyclopedias Wikipedia debunks the theory as urban myth For me myth or not as I reflected on my writing I realized that I had been doing just that checking out the angles associated with each number that told a story and finding God in the rubble of those numbers *House Furnishing Review*, 1923

Political Manipulation and Weapons of Mass Destruction

Ben Cole, 2017-12-11 Concerns about CBRN Chemical Biological Radioactive Nuclear weapons have featured prominently in both political debates and media reporting about the ongoing threat from al Qaeda since 9/11 This book provides a chronological account of al Qaeda's efforts to acquire a CBRN weapon capability and the evolution of the al Qaeda leadership's approach to actually using CBRN weapons set against the context of the politicisation of the threat of CBRN terrorism in US security debates Ben Cole explores how the inherently political nature of terrorist CBRN threats has helped to shape al Qaeda's approach to CBRN weapons and shows how the heightened political sensitivities surrounding the threat have enabled some governments to manipulate it in order to generate domestic and international support for controversial policies particularly the 2003 invasion of Iraq He assesses the relative success of the al Qaeda leadership's political approach to CBRN weapons together with the relative success of efforts

by the US UK and Russian governments to exploit the al Qaeda CBRN threat for their wider political purposes Shedding new light on al Qaeda s tactics and strategy this book will be essential reading for scholars of terrorism and extremism studies
