Challenge Of Coleridge:

The Challenge of Coleridge David P. Haney, 2010-11 Interweaving past and present texts The Challenge of Coleridge engages the British Romantic poet critic and philosopher Samuel Taylor Coleridge in a conversation in Hans Georg Gadamer's sense with philosophical thinkers today who share his interest in the relationship of interpretation to ethics and whose ideas can be both illuminated and challenged by Coleridge's insights into and struggles with this relationship In his philosophy poetry theology and personal life Coleridge revealed his concern with this issue as it manifests itself in the relation between technical and ethical discourse between fact and value between self and other and in the ethical function of aesthetic experience and the role of love in interpretation and ethical action Relying on Gadamer's hermeneutics to supply a framework for his approach Haney connects Coleridge's ideas with among others Emmanuel Levinas's other oriented notion of ethical subjectivity Paul Ricoeur's view about the other's implication in the self reinterpetations of Greek drama by Bernard Williams and Martha Nussbaum and Gianni Vattimo's post Nietzschean hermeneutics Coleridge is treated not as a product of Romantic ideology to be deconstructed from a modern perspective but as a writer who offers a challenge to our modern tendency to compartmentalize interpretive issues as a concern for literary theorists and ethical issues as a concern for philosophers Looking at the two together Haney shows through his reading of Coleridge can enrich our understanding of both

The Open Court, 1924 *Coleridge's Progress to Christianity* Ronald C. Wendling, 1995 Best known as a romantic poet Samuel Taylor Coleridge also mounted a strong challenge to the skepticism and relativism we inherit from the Enlightenment Ronald C Wendling shows Coleridge modern in his critical spirit and chronic anxiety nevertheless progressing toward a total head and heart acceptance of Church of England orthodoxy The tension between Coleridge's poetic feeling for the divinity of the sensible world and his reverential sense of God's personality and transcendence stimulated this development Adopting a personalist approach to the study of Coleridge's thought Wendling explains how the circumstances contributing to his addictive personality helped shape his spiritual and intellectual life **BOOK JACKET** Title Summary field provided by Blackwell North America Inc All Rights Reserved

Wordsworth's Second Nature James Chandler, 1984-12-15 Wordsworth is England's greatest poet of the French Revolution he witnessed some of its events first hand participated in its intellectual and social ambitions and eventually developed his celebrated poetic campaign in response to its enthusiasms But how should that response be understood Combining careful interpretive analysis with wide ranging historical scholarship Chandler presents a challenging new account of the political views implicit in Wordsworth's major works in *The Prelude* above all but also in the central lyrics and shorter narrative poems Central to the discussion which restores Wordsworth to both the French and English contexts in

which he matured is a consideration of his relation to Rousseau and Burke Chandler maintains that by the time Wordsworth set forth his program for poetry in 1798 he had turned away from the Rousseauist idea of nature that had informed his early republican writings He had already become a poet of what Burke called second nature human nature cultivated by custom habit and tradition and an opponent of the quest for first principles that his friend Coleridge could not forsake In his analysis of the poetry Chandler suggests that even Wordsworth's most apparently private moments the lyrical spots of time ideologically embodied the uncalculated habits of an oral narrative discipline and a native English mind

T. Coleridge, the Early Years Lawrence Hanson, 1938 *Nonfictional Romantic Prose* Steven P. Sondrup, Virgil Nemoianu, 2004-03-31

Nonfictional Romantic Prose Expanding Borders surveys a broad range of expository polemical and analytical literary forms that came into prominence during the last two decades of the eighteenth century and the first half of the nineteenth. They stand in contrast to better known romantic fiction in that they endeavor to address the world of daily empirical experience rather than that of more explicitly self-referential fanciful creation. Among them are genres that have since the nineteenth century come to characterize many aspects of modern life like the periodical or the psychological case study; others flourished and enjoyed wide spread popularity during the nineteenth century but are much less well known today like the almanac and the diary. Travel narratives, pamphlets, religious and theological texts, familiar essays, autobiographies, literary critical and philosophical studies and discussions of the visual arts and music all had deep historical roots when appropriated by romantic writers but prospered in their hands and assumed distinctive contours indicative of the breadth of romantic thought.

Romantic Irony sets the broader experimental parameters of comparison by concentrating on the myriad expressions of irony as one of the major impulses in the Romantic philosophical and artistic revolution and by combining cross-cultural and interdisciplinary studies with special attention also to literatures in less widely diffused language streams. **Romantic Drama** traces creative innovations that deeply altered the understanding of genre at large, fed popular imagination through vehicles like the opera and laid the foundations for a modernist theater of the absurd. **Romantic Poetry** demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments. **Nonfictional Romantic Prose** assists us in coping with the vast array of writings from the personal and intimate sphere to modes of public discourse including Romanticism's own self-commentary in theoretical statements on the arts, society, life, the sciences and more. Nor are the discursive dimensions of imaginative literature neglected in the closing volume **Romantic Prose Fiction** where the basic Romantic themes and story types, the romance, novel, novella, short story and other narrative forms are considered throughout Europe and the New World. This enormous realm is seen not just in terms of Romantic

theorizing but in the light of the impact of Romantic ideas and narration on later generations As an aid to readers the introduction to Romantic Prose Fiction explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix No other series exists comparable to these volumes which treat the entirety of Romanticism as a cultural happening across the whole breadth of the Old and New Worlds and thus render a complex picture of European spiritual strivings in the late eighteenth and the nineteenth centuries a heritage still very close to our age
