A fence made of several vertical wooden posts runs across the middle ground. The foreground is a field of green grass. The sky is a pale, hazy blue. Challenges Of Ivan Illich A Collective Reflection:

The Challenges of Ivan Illich Lee Hoinacki, Carl Mitcham, 2012-02-01 This unique collection examines the man Utne Reader has called the greatest social critic of the twentieth century The essays all by people Illich has influenced personally discuss how his life and thought have affected conceptualization study and practice of psychotherapy notions about education ideas concerning the historical development of the text perceptions of technology as well as other topics All of Illich s books are discussed and his ideas on education theology technology anarchism and society are examined in relationship to those of Ren Girard Karl Polanyi Emmanuel Levinas and Jacques Ellul Illich s previously unpublished paper offering a new view of conspiracy in European history is included Leadership Perspectives J. Collins, 2008-06-30 Taking its theme from the fifth annual Studying Leadership conference held at Cranfield School of Management this work offers new formulations of the concept of leadership Making a clear link between research and practice it explores how new ideas about leadership will lead to new approaches to leadership practice *No Country for Migrants? Critical Perspectives on Asylum, Immigration, and Integration in Germany* Wilfried Zoungrana, 2019-10-14 *No Country for Migrants Critical Perspectives on Asylum Immigration and Integration in Germany* aims to critically contribute to ongoing debates about immigration integration and xenophobia in Germany Set against the backdrop of Germany s controversial political decision to open its borders to refugees in 2015 the book realigns this watershed with the broader historical narratives of migration to explain its exceptionality both as an event and transformative force on the migration integration discourse The book further uses critical theories to make sense of the shifting socio political coordinates of Germany It addresses the history of Germany s migration policies its soft and hard power in migration control language and societal integration immigration and the revival of right wing extremism as well as religion and immigration **Polemics and Provocations** Paul Gilk, 2010-06-01 In the twelfth century an Italian monk named Joachim caught the attention of the Christian West by announcing the Three Ages of the World Joachim arrived at his formulation by a meshing of the Christian Trinity with the Old and New Testaments proclaiming in sequence the Age of the Father the Age of the Son and the Age of the Holy Spirit In the early modern period however archaeologists uncovered the remains of an agrarian village social stratum that predates the rise of civilization The divinity of this period was the Mother Goddess a divinity that civilized monotheism with its strict Father God steadily and severely repressed Paul Gilk has modified Joachim s Three Ages revelation by placing this newly discovered Age of the Mother at the beginning of Joachim s sequence But it s obvious that Mother Father Son and Holy Spirit are not psychologically coherent or linguistically consistent The only way to make semantic sense of Joachim s enlarged formulation is to recognize the Age of the Holy Spirit as the Age of the Daughter for if there s a Mother a Father and a Son then the Holy Spirit implicitly and quietly reveals Herself as Daughter With this understanding it s possible to discern the prophetic power and transformative cultural significance of both the contemporary women s movement and the feminine Earth sensibility of the growing ecological outrage Gilk goes on

to assert that the radical servanthood and radical stewardship contained within Jesus kingdom of God proclamation is at least in part an attempt to spiritually reconnect with the agrarian village culture of the Mother s Age but it s also a lifting of that Age to a finer spirituality and toward an ethically Green political order The kingdom of God is Green Gilk says and its overarching divinity is the Daughter The Age of the Daughter is Green and is struggling to be born Contemporary Anarchist Studies Randall Amster, Abraham DeLeon, Luis Fernandez, Anthony J. Nocella, II, Deric Shannon, 2009-02-10 This book highlights the recent rise in interest in anarchist theory and practice attempting to bridge the gap between anarchist activism on the streets and anarchist studies in the academia Bringing together some of the most prominent voices in contemporary anarchism in the academy it includes pieces written on anarchist theory pedagogy methodologies praxis and the future **Attention, Cooperation, Purpose** Robert French, Peter Simpson, 2018-05-15 This book describes an approach based on attention that can help individuals and groups to cooperate more effectively It presents the first book length reassessment of Wilfred Bion s ideas on groups Every group has a purpose or purposes or as Bion put it every group however casual meets to do something The approach described here shows how individual group members use of attention both broad or evenly suspended and focused can promote a better understanding of purpose making it possible for them to do what they have met to do This work of attention enables group members to maintain a clear sense of their purpose and also to recognise how easily they can become distracted losing focus and dispersing their energies into activities that are off task The approach builds on the authors experience of using Bion s insights into group dynamics over twenty five years in different contexts formal and informal as group members managers leaders teachers consultants researchers family members and friends **Mobilising Classics** Fiona Dukelow, Orla O'Donovan, 2013-01-18 The terms patriarchy institutional racism sustainable development and alienation may be familiar but this familiarity is often removed from the analytical contexts in which these ideas emerged This book provides a series of rich reflections on the interaction between the radical ideas associated with these and other authors and political action in Ireland The classic texts that comprise the focal point for each chapter were selected by the contributors many of whom straddle the boundaries of academia and activism Each essay provides an account of the contributor s personal encounters with the text opens up the key mobilising ideas and considers how the text has the potential invigorate the political imagination of contemporary oppositional politics This book will be of interest to students in the social sciences especially sociology and Irish studies and will appeal to those interested or involved in political activism of any variety Medicalization Anne Zimmerman, 2024-05-09 This book examines the phenomenon of medicalization and the increasingly large invasive and coercive role of medicine in society Medicine today impinges territory formerly left to families parents society and social and economic policy Expanding disease definitions and allowing ever milder conditions to qualify for medicine disease creep influences public policy and social behavior Medicalization redirects those experiencing stress sadness or distraction to medicine and impacts how society defines health and wellness

Medicalization in the contexts of diet lifestyle education and athletics growing old public safety and mental and physical health are all explored Medicalization has adverse consequences both in that it may demonize those who do not go along and it offers a false promise to remedy non medical problems with a simple pill The pharmaceutical industry profits from disease creep and doctors are complicit in furthering a narrative that relies on medicine Laws often support a medical approach to societal problems despite notable financial conflicts of interest Written in a clear and accessible style Medicalization is a valuable addition to the literature on bioethics law health policy social sciences and political studies

Science, Technology and Society ,2000 **Exile** Christopher D. Brooks,2010 [Knowledge & Power in the Global Economy](#) David Gabbard,2008 The second edition of *Knowledge and Power in the Global Economy* examines how neoliberal and neoconservative policies are working in tandem

to privatize and commercialize public schools It looks at how these policies and the agendas behind them have impacted the internal dynamics of school management teaching and learning as well as how they have transformed the external dynamics of education from a public good or service offered to serve public interests to a private enterprise primarily serving private interests In addition to information critique and analysis multiple perspectives are provided that readers can draw upon to formulate an alternative vision of education as a crucial element of social change along democratic and egalitarian lines The first edition of this volume provided a critical encyclopedic approach to the rhetoric of educational reform as it developed from the 1980s through the 1990s critiquing its vocabulary elaborating the multiplicity of ways that the logic of neoliberalism and the emerging patterns of high stakes testing and accountability were impacting the curriculum and introducing ideas associated with alternative and liberatory educational projects Since its publication in 2000 policy developments such as the No Child Left Behind Act of 2001 in the U S and others in the U K and other parts of the world have nationalized and intensified these patterns deepening the logic and extent of neoliberalism s hold over educational reforms At the same time it is impossible to understand the current crises in education solely in terms of neoliberalism the impact of neoconservatism must also be considered Hence this second edition has a new subtitle The Effects of School Reform in a Neoliberal Neoconservative Age This edition is structured around five themes Political and Social Foundations Anti Educational Foundations The Set Up Anti Educational Foundations The Trap Classroom Consequences and Democracy s Path This volume will particularly interest scholars and professionals across the fields of educational foundations curriculum theory and educational policy and is well suited as a text for courses in these areas
