Challenging Codependency:

Challenging Codependency Marguerite Babcock, M. Christine McKay, 1995 In the field of addiction research and counselling there has been an increasing investment in the theory of codependency a theory that holds women partly responsible for perpetuating the alcoholism and addiction of their male partners This is the first anthology of feminist essays that presents a cogent critique of this theory The unifying feature of the eighteen essays collected here is the revelation that solid evidence contradicts rather than supports the theory of codependency Its assumptions are found to be unsubstantiated in theory and practice The contributors to the volume explore the history of codependency theory and look at reasons for its growing popularity in medical model politics A central theme emerges that codependency theory is essentially misogynist in nature the result of a male backlash against feminism The collection leaves no doubt that this backlash is effective These essays reveal the many ways that codependency therapy promotes advice and counselling that is damaging and ultimately fails women seeking help for their distress This anthology aimed at professionals as well as readers at large reveals a remarkable body of literature questioning the validity of popular addictions philosophy about women and the quality of the scholarship that supports those theories

Self Help, Inc. Micki McGee, 2005-09-08 Why doesn't self help help Cultural critic Micki McGee puts forward this paradoxical question as she looks at a world where the market for self improvement products is exploding and there seems to be no end in sight Rather than seeing narcissism at the root of the self help craze McGee shows a nation relying on self help culture for advice on how to cope in an increasingly volatile and competitive work world Self Help Inc reveals how makeover culture traps Americans in endless cycles of self invention and overwork as they struggle to stay ahead of a rapidly restructuring economic order

codependency they will continuously choose partners who can't fulfill their needs and drain all their emotional energy. On the other side, a narcissist, addict, abuser, chronically selfish person, or a person who refuses to get help for a mental illness will seek out partners eager to please and make excuses for them. This book covers the following topics: What is codependency? Are you codependent? Are you in a codependent relationship? How to avoid codependent relationships? Ending a codependent relationship? Moving on from a codependent relationship? The symptoms and effects of codependency in your relationship? How to overcome codependency? And much more. It's very hard to find out who is going to suffer from codependency because many factors are responsible for this disorder. However, after doing some research over a few years, doctors have found out that codependency often affects a spouse, parents, siblings, friends, or co-workers of people afflicted with alcohol or drug dependency. Actually, codependency is a term used to describe partners living in a relationship with a person suffering from alcoholism or other kind of addiction. Codependency is also found among the families where a case of chronic disease or mental illness has been found. Today, codependency has broadened to describe any codependent person belonging to any kind of dysfunctional family. Codependent people have a very low self-esteem and they often look for the solution out of their own thinking. These people find it hard to cope with their own identity and emotions and find it hard to be themselves. Some try to get rid of their anxious behaviour through some outward means like alcohol or drugs and become addicted to it. While the others may develop compulsive behaviours like gambling, indiscriminate sexual activity, workaholicism, etc. Buy NOW and your customers will have all they need.
