Chance and Intelligence in Thucydides Lowell Edmunds,1975 A rewriting of the author s thesis      **Chance and Intelligence in Thucydides** Arthur Lowell Edmunds,1970      Thucydides Walter Robert Connor,1984 This full scale sequential reading of Thucydides history of the Peloponnesian War will be invaluable to the specialist and also to those in search of an introduction and companion to the Histories Moving beyond other studies by its focus on the reader s role in giving meaning to the text it reveals Thucydides use of objectivity not so much as a standard for the proper presentation of his subject matter as a method for communicating with his readers and involving them in the complexity and suffering of the Peloponnesian War W Robert Connor shows that as Thucydides themes and ideas are reintroduced and developed the initial reactions of the reader are challenged subverted and eventually made to contribute to a deeper understanding of the war

**Between Form and Event: Machiavelli's Theory of Political Freedom** M. Vatter,2013-04-17 Before Machiavelli political freedom was approached as a problem of the best distribution of the functions of ruler and ruled Machiavelli changed the terms of freedom requiring that its discourse address the demand for no rule or non domination Political freedom would then develop only through a strategy of antagonism to every form of legitimate domination This leads to the emergence of modern political life any institution that wishes to rule legitimately must simultaneously be inscribed with its immanent critique and imminent subversion For Machiavelli the possibility of instituting the political form is conditioned by the possibility of changing it in an event of political revolution This book shows Machiavelli as a philosopher of the modern condition For him politics exists in the absence of those absolute moral standards that are called upon to legitimate the domination of man over man If this understanding lies open to relativism and historicism it does so in order to render effective the project of reinventing the sense of human freedom Machiavelli s legacy to modernity is the recognition of an irreconcilable tension between the demands of freedom and the imperatives of morality      **Political Theory and Praxis** Terence Ball,1977-01-01      **Basileia** Geoffrey Nathan,Lynda Garland,2011-01-01 Basileia brings together 18 essays on the topic of Imperium and Culture in the Byzantine Empire from the fourth to the fifteenth centuries The volume is dedicated to Elizabeth and Michael Jeffreys who number among the founding members of the Australian Association for Byzantine Studies and whose contribution to the field is internationally recognised Each of the honorands has contributed a chapter other contributors include Roger Scott Pauline Allen Brian Croke Ann Mullett Geoffrey Nathan Lynda Garland Bronwen Neil Andrew Gillett Amelia Brown Andrew Stone Nigel Westbrook and Erika Gielen This collection will have a broad appeal to those interested in the complex relationship between imperial rule and culture in Byzantium The volume includes 50 colour and black and white images      *Power and Structure in Thucydides: an Analytical Commentary: The pre-war period-the first year* Haruo Konishi,2008      **Power and Structure in Thucydides: an Analytical Commentary: The seventh year-the tenth year** Haruo Konishi,2008      **Fear in Democracy: A Study of Thucydides' Political Thought** Brian E.

Calabrese,2008 Power and Structure in Thucydides: an Analytical Commentary Haruo Konishi,2008 **Power and Structure in Thucydides: an Analytical Commentary: The nineteenth year-the twenty-first year** Haruo Konishi,2008 **A Commentary on Thucydides: Volume II: Books Iv-v.24** Simon Hornblower,1991 This is the second volume of a three volume historical and literary commentary on Thucydides the great fifth century BC Greek historian Books iv v 24 contain the Pylos Sphacteria narrative and Brasidas operations in the north of Greece All the Greek is translated and there is a full index A new feature is the provision of a thematic introduction *Power and Structure in Thucydides: The pre-war period-the first year* Haruo Konishi,2008 **Power and Structure in Thucydides: an Analytical Commentary: The second year-the sixth year** Haruo Konishi,2008 Word and Concept in Thucydides June W. Allison,1997 Applying perspectives of modern philosophers of language to the Greek historian examines the language of abstraction he used with a view to defining how concepts developed and were understood among his contemporaries of the 5th century BC Concludes that far from merely borrowing presocratic thought and sophistic rhetoric he moved discussions of language to a new level that recognized concepts and metalinguistic terminology and suggests that the concept of a concept may be much older than we have previously thought Translations are provided for the passages quoted but some knowledge of ancient Greek would be helpful to follow the argument Annotation copyrighted by Book News Inc Portland OR **The Decline of Logos in Thucydides' Athenian Speeches** John T. Hogan,1989 Ethics in Thucydides Mary Frances Williams,1998-05-07 Ethics in Thucydides uses the historian s account of the resolution at Corcyra as the basis for determining a moral or ethical perspective in Thucydides History Various scenes speeches and narrative descriptions are analyzed in relation to ethical vocabulary their conformity to an ethical perspective and the way in which they promote an ethical outcome Ethics in Thucydides is ground breaking because up to this point scholars have not persuasively argued that ethics played a role in History Williams work is an extensive analysis which also considers Thucydides in relation to his predecessors and contemporaries **The Encyclopedia Americana** ,1999 A thirty volume encyclopedia covering important world events while providing major new treatments of selected topics in various academic fields **Collected Essays** Colin Macleod,1983 Colin Macleod died in December 1981 at the age of 38 Many regarded him as already one of the most profound interpreters in our times of Greek and Latin literature and ideas and it was widely felt that his essays should be collected together in a single volume There are twenty longer essays including two previously unpublished on Homer s poetics and on Thucydides tragic vision and some dozen shorter pieces The three most prominent authors are Thucydides Horace and Gregory of Nyssa but Macleod s extraordinary range included Aeschylus Catullus Propertius and Origen among many others He left marginal notes towards any second edition and these have been collected as an appendix There is also a list of his many book reviews This volume has a powerful coherence which comes from Macleod s fusion of scrupulous scholarship with a passionately intense search for wisdom in the creations of the past He sees great writers of prose and

verse as using myth history theology and rhetoric as access to some understanding of the human condition Careful readers will find that these essays have within them deeply felt insights into society love suffering and death     **Contextualizing Classics** Thomas M. Falkner,Nancy Felson,David Konstan,1999-11-22 This collection of original essays examines innovations in both the theory and practice of classical philology The chapters address interdisciplinary methods in a variety of ways Some apply theoretical insights derived from other disciplines such as folklore studies performance theory feminist criticism and the like to classical texts Others examine the relationships between classics and cultural studies popular literature film art history and other related disciplines Others again look to the evolution of theoretical methods within the discipline of classics Taken together the essays offer a spectrum of new approaches in the classics and their place within the profession
